Phyllis,

Enclosed are stream nominations completed to date. I would have completed them earlier except that someone had deleted the majority of the streams, listed in the 1975 catalog, west of Unalaska Is. As I mentioned on the phone these deletions have resulted in considerable extra effort. With the exception of a few streams in Unalaska Bay, they all require digitizing for lat/longs.

I was a bit picky on the Unalaska stream locations for lat/longs. Actually they were only off a few minutes; probably as the result of the difference in percision between the 1:250,000 + 1:40,000 navigational

charts. There is a descrepency in in the stream numbering for Unalaska Bay. Some of the problem resulted from Nateekin R being misslabled Shaishnik of R. and from deletion of stream # 306-31-060 (1975). The latter stream had little or no pink salmon in the years prior to its deletion. This resulted from a miss placed culvert. A Few fish were noted this year, as local students are attempting to improve the stream.

Enclosed are:

	Island:	#:
1) Nominations for: a)	Unalaska	(59)
b)	Umnak	(27)
c)	Amlia	(36)
d)	Atka	(72)
Andreanof Is e)	Great Sitkin	(6)
f)	Umak	(1)
g)	Little Tanaga	(2)
h)	Kagalaska	(5)

2) 1:250,000 blue lines for:
a) Unalaska
b) Umnak (xerox of my map)
c) Amlia
d) Atka

Note: I have the blue line for the Andreanof Is. to complete Adak, Kanaga, Tanaga Is.

Also included are 1:40,000 Navigational Charts # 16518 + 16528. Navigational Charts may be of value to your work in areas where finer scale than 1:250,000 is desired.

Good to talk with you today. Other material will fallow shortly. This will keep the process moving.

Sincerely

Pat Holmes
