

Proposal 37

RC 058

RC 58

To set up a 24 hour checkpoint station to monitor subsistence and personal use harvest and permit compliance in the Chitina Area:

We recommend that this proposal be amended as follows:

A voluntary 24- hour checkpoint supported and operated by the fishery stakeholders to turn in subsistence fish wheel permits, personal use permits and subsistence Dip-net permits and to voluntarily report harvest and effort for the Chitina Subdistrict and the lower Glennallen Subdistrict.

We have talked to other groupss and believe a stakeholder-supported organization can fund and operate this check station if the department will support the concept.
