RE: Support for Proposal 133 and Proposal 134 – 5AAC 28.130.

Lawful gear for Eastern Gulf of Alaska Area, allowing for the use of pots in the sablefish longline fishery for both C61C permit holders and southern southeast permit holders.

To the Alaska Fish and Game, Board of Fisheries:

We, the undersigned, support proposal 133 and 134- 5AAC 28.130. to allow for the use of pots in the southern southeast longline sablefish fishery.

Allowing for the use of pots in the sablefish fishery would be beneficial to the fishery. It would greatly reduce the rockfish bycatch, reduce the gear conflicts, and increase the quality of fish caught by eliminating the sand-fleas and hagfish predation. It also allows for the release of juvenile sablefish, not ready for market, thus protecting the future stocks from overharvest.

Pots will also reduce the amount of bird interaction with the longline gear as boats set gear, easing concerns over impacting protected bird species.

Thank you for your consideration of this proposal. If accepted by the BOF, it will have a positive impact on all the resources involved in the sablefish fishery.

Respectfully;

RE: Support for Proposal 133 and Proposal 134 – SAAC 28.130.

Bill Connor

Compare these numbers with incidental catches and Bycatch with John Johansen pot catches he submitted with on 2.5% by catch compared to my 15% for longline. Pots had only 2.5% and no halibut incidental take.
