Proposal forms are also available at any Boards Support office. Proposals must be submitted on the current approved form. Any additional information provided with the form, such as tables, Internet web links, or charts, will not be included in the proposal book.

The completed proposal form must contain a contact telephone number and address. Email addresses are appreciated. Please print or type the individual's or organization's name as appropriate.

All proposals are reviewed by the board's proposal review committee prior to publication. Language that is emotionally charged detracts from the substance of the proposal and may draw opposition not germane to the element(s) of the proposal. The proposal review committee reserves the right to edit proposals containing such language. **Proposals that do not meet the call will not be accepted.** Proposals must pertain to the region, species, and uses in this call. If duplicative proposals are received by the same individual or group only one will be included in the proposal book.

Proposals published in the proposal book will be referenced with the appropriate Alaska Administrative Code citation and include a brief description of the action requested.

Proposal books are sent to advisory committees and the public for review and comment. Proposals are online at <http://www.adfg.alaska.gov/index.cfm?adfg=fisheriesboard.proposalbook>. Those submitting proposals are encouraged to review the proposal book at their earliest convenience to ensure proposals are included and accurate. Noted errors and omissions should be reported to Boards Support immediately. The public is encouraged to visit the Board of Fisheries website frequently for news and information regarding the upcoming cycle.

Responsive proposals received by the proposal deadline will be considered by the Board of Fisheries during the October 2016 through March 2017 meeting schedule.
