

Copper Basin AC 08 Comments on Guide Ban Proposals 163 & 165

The subsistence guide access ban originated in the Copper Basin and was heard at the BOF meeting in November of 2021. A statewide ban places restrictions on access to all and should be considered on case by case basis.

The screenshots below show the Copper Basin AC meeting minutes (AC 08) on proposal 165 and 163 stated that they did not want to take action stating **that they do not want to impose our regulations on other areas, let them decide**. This was also reiterated by their **OPPOSITION** to the PU Guide Ban Proposed in 163.

Screen Shoot Copper Basin AC08 on Proposal #163

#163:

12 oppose, 0 support, 1 abstain (Dave Sarafin due to his work)

Mark reviewed. Would prohibit guiding in personal use finfish fisheries.

Chuck moved to adopt, Jim seconded.

Kirk – what kind of permit do they need

Greg – targeted, or would it shut down their business

→ Karen – cookie cutter things doesn't always fit all areas, things should have a biological connection, and do things region by region, not statewide.

#165:

3

Copper Basin AC. 2/13/23 meeting

AC08
4 of 5

Take no action

Mark reviewed

Sarah moved to adopt, Karen seconded.

Jim Horrell – don't want to impose our regulations on other areas, let them decide
Don't want to comment on but do want to say that this is already in place on Copper.
