103-50-10310

Name:
Latitude: 55° 17' ~~18"~~ 14"
Longitude: 133° 08' ~~09"~~ 17"
Geodetic Map No: Craig B-4
Location: 2.7 miles east of the east tip of Ridge Island--Prince of Wales Island.

Catalog No: 103-50-31
Former Stream No:

Work Area: Ketchikan
Watershed Length: .5 mile
Drainage Area: .5 square miles
Water Supply Type: runoff from low forested hills and scattered muskegs

Trails & Survey Routes: the streambed can be walked at normal water levels, considerable thick brush and windfall in much of stream.

Aerial Survey Notes: mouth and intertidal portions only visible from the air

Anchorage: near the stream mouth

Tide Stage when Surveyed: 1/4

RESOURCES

COMMERCIAL FISHERIES (species, escapement, timing, spawning area): pinks, chum, and coho fair rearing for coho in the lower 1000' of stream timing is late

Spawning area: 725 meters^2 (1000' X 12' X 65% ASA)
Schooling Areas: at the mouth and several small pools in the lower stream (see map)

Spawning Areas: throughout area surveyed, salmon bones were noted on the bank 460' upstream

SHELLFISH POTENTIAL: assured low, crabpot set near stream mouth with no results

SPORT FISHERIES: low potential due to small size of stream and limited rearing area

LAND USE (history, present, proposed): unknown, presently in a natural state

REHABILITATION POTENTIAL: none needed

SOILS: the stream runs underground approximately 330 feet upstream and there are several braided areas and area with unstable undercut banks (see map)

GAME RESOURCES (species, use, habitat): deer, bear, and furbears in the area
