By delegation to:

Mike Booz
Lower Cook Inlet Sport Fish Area Manager

JUSTIFICATION:

King salmon escapements to the Anchor River have been near the lower end of the escapement goal the past 4 years. The 2024 preseason forecast is for a run size of 2,758 king salmon which is below the lower end of the SEG. Since 2017, over 50% of the escapement has been counted during July. The later run timing warrants closing the Anchor River and Deep Creek to sport fishing through July 15. Deep Creek king salmon escapement has shown similar trends to the king salmon run in the Anchor River.
