Re: 22A South, Moose hunting, winter season extension request

Dear Christy,

On behalf of Community of Stebbins and neighboring Village of St. Michael, I am tendering this request for a 30 day extension to hunt moose to your attention, per direction of Peter Bente, Nome, State Fish & Game.

Justification, for this request is no one has gone moose hunting in January from Stebbins because of inclement weather, extreme cold, lack of snow and bare ground that makes traveling on snowmachines difficult to access hunting areas. Included St. Michael as we live in / on the same island and connected by road.

Thank you for your valuable time and consideration.

Sincerely,

Fred
Fred Pete, Sr.
