

Live Staking

Cut and trimmed live willow branch
1/2" - 2" in diameter
10" - 18" long

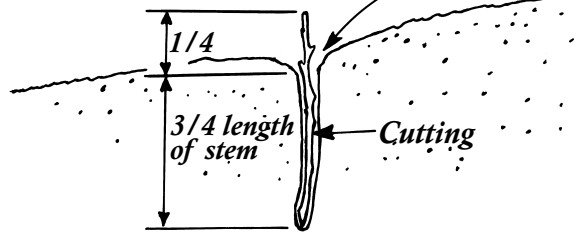

Prepare planting hole with rebar

Shovel Installation Method

Create a small depression to collect water

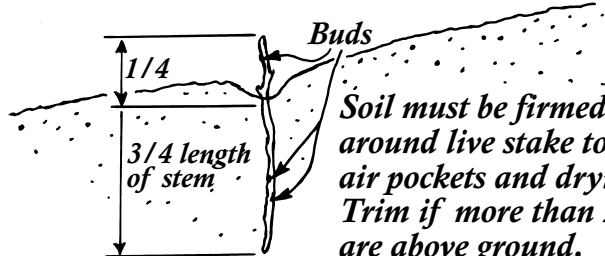

1/4

3/4 length of stem

Cutting

Buds

1/4

3/4 length of stem

Soil must be firmed around live stake to avoid air pockets and drying out. Trim if more than 2 buds are above ground.
