- Open to sport fishing year-round for species other than salmon.
- **October 1-August 14:** Open to all salmon fishing.

KODIAK ROAD ZONE SPORT FISHING ENHANCEMENT PROJECTS

The Alaska Department of Fish and Game annually funds numerous fisheries enhancement projects throughout Alaska in order to increase the abundance and diversity of fish species available to anglers. On Kodiak Island, several enhanced sport fisheries are maintained in Road Zone waters and include populations of anadromous king salmon, plus anadromous coho salmon and resident rainbow trout. Hatchery raised king salmon can be caught from mid-June through early August at the American and Olds river drainages and Salonie Creek. Anadromous coho salmon return to Monashka and Pillar creeks, Mill Bay and Mission Beach from early August through the end of September. Rainbow trout annually stocked in 17 Road Zone lakes are available to anglers year-round and can be fished through the ice when safe conditions exist.

Stocked location maps are available from the Kodiak ADF&G office and are also available online at www.adfg.alaska.gov/SF_Lakes/

Additional information on Kodiak and other sport fisheries enhancement activities can be found on the Division of Sport Fish website at <http://www.adfg.alaska.gov/index.cfm?adfg=fishingSport.main>
