

Hi Tom,

I heard about you guys trying to get the trawlers from fishing in the Unalaska Bay. You know me, but I would rather remain anonymous since I rely on Pollock fishing. I don't mind the bycatch of halibut, Chinook, coho and a number of other species, but this breaks my heart! Sealion isn't supposed to be part of bycatch, and believe me, this isn't our first one. I totally agree with you guys trying to get us from fishing around your bay. Thanks, I hope this helps.
