

**AMEND RC # 84 BOF PROPOSAL ON THE DOLGOI ISLAND AREA FISHERY**

Clarify how the proposed 80 thousand fish cap should be implemented:

Cap the Dolgoi Island Area fishery as addressed in RC 84 to where if adopted the fishery would be managed as follows:

1. There would be a single 80k targeted cap that would cover the combined pre July 26<sup>th</sup> sockeye catch. There would be no sub-caps as was originally presented in RC #84 BOF proposal.
2. The Department shall manage the Dolgoi Island area fishery pre July 26<sup>th</sup> to where the fishery shall close the fishery when fish-ticket records first tabulate to a pre July 26<sup>th</sup> sockeye salmon harvest of **at least** 80 thousand fish.
