Re: RC Comments Proposals 44 through 53

Dear Chairman Johnstone, Members of the Board,

I support proposals 44 through 53 repealing the setnet permit stacking sunset provision for many reasons. The two main reasons that come to mind are convenience and control within a family operation when members/crew are not able to fish the entire season. The other, which is directly related to the former, is that the permits are working the entire season via the members/crew who are able to stay and fish the duration which gives our fish buyers dependable sources of product. I fish Ekuk beach in Bristol Bay (since 1972) and sincerely appreciate your consideration in this matter.
