

## RC

---

**Board of Fish members****Proposal 35-36 AREA 0 state waters**

---

If passed and AREA 0 state waters is created, keep the JIG quota NON EXCLUSIVE and the POT QUOTA EXCLUSIVE

If made an EXCLUSIVE area for jig vessels the few of us that travel westward from Kodiak and Western Gulf will not be able to harvest any quota as we have done in the past on the federal TAC

The Quota will most likely be untouched or maybe a very small amount harvested and the potential for the few of us that do move around the state will not have an opportunity as in the past.

If made a NON EXCLUSIVE for jig vessels when weather dictates we will have the opportunity to fish if other areas close or no fish in other areas that are EXCLUSIVE (Kodiak, Western Gulf)
