The board will continue its work on Proposal 44, tabled at the January 2014 Kodiak finfish meeting during the 2013/2014 meeting cycle. The board tabled Proposal 44 and created the Gulf of Alaska Pollock Work Group to gain greater information on the pros and cons of creating a state

waters pollock fishery. Starting in April 2014, and later in October 2014, the Work Group met and accumulated information related to Proposal 44. It is anticipated the board will convene another work group meeting and resume work on Proposal 44 at its March 2015 Statewide meeting.

At its 2014 work session the board created the Kuskokwim Subsistence Salmon Panel to meet with Kuskokwim communities and stakeholders to obtain feedback on newly assigned Kuskokwim River Subsistence Finfish Fishery proposals 271 and 272, and Kuskokwim River king salmon subsistence fishing. The work group will travel to the region and convene meetings to gain feedback prior to hearing these proposals at the Statewide meeting in Anchorage in March 2015. The panel may also carry additional observations and recommendations to the Board's October 2015 work session.

The board will hold a special meeting of appropriate regulatory agencies and stakeholders to gain information on newly assigned Proposal 276. The board plans to hold this meeting on a date to be determined at the Southeast and Yakutat Finfish Meeting, February 23 – March 3, 2015, in Sitka, Alaska.

For a copy of the proposed regulation changes contact the Alaska Department of Fish and Game, Boards Support Section, P.O. Box 115526, Juneau, AK 99811-5526, (907) 465-4110, or <http://www.adfg.alaska.gov/index.cfm?adfg=fisheriesboard.main>.

Unless otherwise specified for a particular meeting in a published notice, written comments exceeding the page limit from any one individual or group relating to proposals at any one meeting will not be accepted. Written comments limited to 10 single-sided or 5 double-sided pages in length from any one individual or group are accepted after the two-week deadline and inserted in board member workbooks at the beginning of the meeting, and accepted until the board begins proposal deliberations.

ADDITIONAL PUBLIC COMMENT STANDARD:

During a meeting written comments from any one individual or group may be submitted by hand delivery at any time if 28 copies are provided. Individuals not in attendance at a meeting may fax comments to 907-465-6094. As a practical matter, comments submitted after the board begins deliberations on relevant proposals are likely to receive less consideration than comments submitted earlier.

Once proposal deliberations begins at meetings, the board will **ONLY** accept written comments on the topics being considered at the meeting from any one individual or group that are not more than five single-sided pages, or the equivalent number of double-sided pages, unless specific information is requested by the board that requires more pages than allowed under this standard.

Each meeting will generally start at 8:30 a.m. on the first day of the meeting dates below unless the board directs a different start time. The public oral testimony period of each regulatory meeting begins after staff reports and continues until everyone who has signed up timely and is present has an opportunity to be heard. The board will take oral testimony only from those who register before the cut-off time announced by the board chair at each meeting. The length of oral statements may be limited to three minutes or less. Anyone interested in, or affected by, the subject matter contained in this legal notice should make written or oral comments to have their views considered by the board.
