**DATA FROM F&G FOR HOUSEHOLDS ACQUIRING BOTH A UCI (SOUTHCENTRAL) AND CHITINA P.U. DIPNET PERMIT**

PERMIT YEAR	DUAL PERMIT HSE. HLDS. (DPHH)	AVG. # PEOPLE IN DUAL PERMIT HSE HLDS.	UCI PERMITS FISHED BY DPHH	AVG. # FISH PER UCI PERMIT FISHED BY DPHH	CHITINA PERMITS FISHED BY DPHH	AVG. # FISH PER CHITINA PERMIT FISHED BY DPHH	AVG. COMBINED TOTAL FISH HARVESTED
2022	1745	3.5	1242	24.21	1271	27.59	51.8
2021	1865	3.4	1217	24.02	1273	24.01	48.03

The annual family harvest limit is the same for the UCI and the Chitina P.U. dipnet permits and this is 25 for the permit holder and 10 fish for each additional household member.

A hypothetical 3.5 member household would be allowed **50** fish and a hypothetical 3.4 member household **49** fish under a single permit. Using these numbers, dual permit households in both years had a combined permit harvest approximately equal to a one permit full allowed harvest.
