

RC 117

To the Alaska Board Of Game

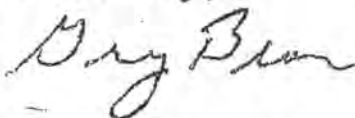

2/13/13

The Juneau-Douglas Fish & Game Advisory Committee (J-D AC) held a scheduled meeting on February 6th. At this meeting the J-D AC received a status report on the Guided Concession Program (GCP) from members who had attended the DNR presentation of the GCP the evening before, at Centennial Hall.

The two members were representatives of the AC'S Hunting Guide seat and a hunting/sport fish/personal use seat. They were both impressed with the stewardship basis of the program, commenting on how the GCP is designed to reduce user conflicts in the field while encouraging guides to be ethical users of Alaska lands and resources.

The J-D AC fully supports the continuing development of, and looks forward to, the implementation of the Guided Concession Program.

Sincerely,

---

Greg R Brown  
Chairman of the Juneau Douglas Ac  
J-D Advisory Committee
