

Jim Tilly
BOG 2016
Iliamna Advisory Committee Testimony

prop 3 We oppose, the reg book seems to be pretty clear as it is.

prop 21-26 We support,, this reg was primarily written for the Chugach Mtns, when we (unit 9B) venture north into the western Alaska range the sheep density is very low, without flying up a valley or 2 a person maybe 20 miles from the nearest sheep. While it may be feasible in some area's in others it's a total disaster.

prop 30 We support ,, a good proposal that's been needed for a long time, it still give a hunter the chance to hunter kill a dozen Alaskan rams over his lifetime.

prop 31 We support ,, the exception being in areas of abundant goats where they are used as a major meat animal.

prop 50 We oppose,, it's a good honest requirement, easy to do, why oppose it?

prop 54 We oppose, they call them mulligan bulls in Maine, not here it's a myriad of confusing regulations, status quo is working fine.

prop 57 We support,, residents of unit 9B would also like to be included in this. we are in between 2 huge National Parks and have way more than our fair share of brown bears here. With our village permit in place for years some have a hide and skull or 2 sitting around. With the cost of fuel as such around the lake selling a hide would help the economy instead of getting nailed to a shed or nothing done at all. Skulls and claws are easily turned into artwork. Fears of market-hunting are unrealistic and the lodges can all have a brown bear rug. Most prob bears are juveniles and not true trophy bears anyway.

prop 69 We oppose, interesting if you believe what is written,,

prop 70 We oppose,, most air scouting is just scouting for a huntable population,

prop 72-74 We oppose, while most people use larger calibers some are more than capable of all game with 223 and 22-250's.

prop 79 We oppose,, This is totally unrealistic and it basically outlaws all but backyard or road trappers. No need to explain this any further!!

prop 129 We support,, tags,,, More bears are getting sealed and reported, it doesn't look like an increase, just reported which was the intent of village permits.

prop 134 We support,, 2 caribou,, this is basically a meat hunt, simplify things.

Thank you,, Jim Tilly

BOG 2016
Personal Testimony

prop 57 good idea,, locals could recoup a few \$\$ for work invested in getting a hide ready for sale and cleaning skull

prop 72-74 most people who use smaller calibers are absolute experts!

prop 79 daily trap checks,, foolish proposal, unfounded,

prop 134 2 caribou,, make it a 1 hunt deal, when possible

Thanks,
Jim
