Subject: Craig AC comments on AR 194.
Date: Wednesday, March 17, 2021 9:05:28 AM

Below are excerpts from our meeting notes of 2/25/21 about AR 194. We voted to support with lots of concern that a 7 day sealing period be managed to not have a severe impact on trappers.

Mike Douville made the motion to accept the ADFG AR proposal 194 as written with Mike Kampnich second. Mike Douville does not support the proposal.

Roll call vote:

Dave Creighton- Yes

Mike Kampnich- No

Chuck Haydu- Yes, with comments

Kirk Agnitsch- Yes, with comments

Joel Stenstra- No

Brian Castle- Yes, with comments

Ellen Hannan- Yes, with comments

5 Yes, 3 No. Motion carries. Comments are the option to call in a wolf harvest if out of the sealing area.

Mike Douville stated he does not see the value of a 7 day sealing from time of harvest but does support sealing 7 days after the season closes. (With all the samples going in at the end of the season.)

Dave Creighton and Joel Steenstra both concerned that sealing options for trappers in smaller communities or trappers out in a boat, creates a hardship to get to a available sealer in 7 days.

Thanks for your consideration,
Ellen Hanna
