

Findings for the Alaska Board of Game
2017-218-BOG
Board Recommendations to the Department of Fish and Game
provided during the Interior/Northeast Arctic Region Meeting
February 25, 2017

The Board recommended the department take the following actions:

1. Follow the below guidelines when labeling resident hunts in 5 AAC 85.
 - a. "General hunt only" is applied to resident hunts in areas designated as nonsubsistence areas by the Joint Board of Fisheries and Game and to hunts outside of nonsubsistence areas that have a negative customary and traditional use (C&T) finding for the game population.
 - b. "Subsistence hunt only" is applied to resident hunts if the hunt occurs outside nonsubsistence areas on a game population with a positive C&T finding and the harvestable portion of the population is not great enough to allow for nonsubsistence harvests and uses.
 - c. No label. These hunts generally include all types of resource use, subsistence and nonsubsistence, and do not differentiate between the various types of use.
