Re: Proposal # 6 to establish an Advisory Committee for the community of Bethel.

Please note the following that was not included in the proposal as submitted:

- Under 5 AAC 97.005 regarding Areas of Jurisdiction; for the Bethel Advisory Committee if approved this would include their customary and traditional hunting and fishing areas within GMU's 17 A & B, 18, 19 and 21 E; and
- The Bethel Advisory Committee would be composed of 9 members.

In addition, per notice from Boards Support that a list of 5 people identified for initial appointment to this committee should be prepared if approved; these individuals are: Henry Hunter, Robert Lekander, Bing Santamour, Thaddeus Tikiun and Glen Watson.

We look forward to your positive consideration of this proposal and feel that all the AC evaluation factors contained in 5 AAC 96.420 would be satisfied and/or enhanced by creation of this committee.
