**JUSTIFICATION:**

Biologists have set a maximum guideline harvest objective of 4 males or 1 female goat allowed for that portion of Unit 4 (RG150) including the north fork of the Katlian River and Coxe River drainages and, (2) that portion of the unnamed drainage west of Coxe River and north of Cedar Cove that drains into Nakwasina Sound. As of Thursday, October 13, 2011, 4 male goats have been reported harvested. Because the guideline harvest has been met in this area, an emergency order is being issued to close the mountain goat hunting season at 11:59 pm, Friday, October 14, 2011. The emergency order action is necessary to restrict the harvest to the guideline level, and to prevent overharvest in this area. Any additional harvest could have long-term negative effects on this goat population.
