

# Hunting and Trapping

## Emergency Order

Alaska Department  
of Fish and Game

Under the Authority of AS 16.05.060

**Emergency Order No.** 04-03-17

Issued at Palmer, Alaska  
July 6, 2017

**Effective Date:** 12:01 AM July 7, 2017

**Expiration Date:** June 30, 2018  
unless superseded by subsequent  
emergency order

### EXPLANATION:

In spring 1992, the Alaska Board of Game adopted a lynx tracking strategy in Southcentral game management units with framework trapping seasons of November 10 through the last day of February. The board delegated authority to the department to adjust season dates within this framework to track population cycles. In March 2005, the board determined lynx hunting seasons, not bag limits, would be included as part of the lynx tracking harvest strategy.

This emergency order meets the lynx management needs for 2017-2018 by reducing the length of the lynx hunting and trapping season in Game Management Unit 14A, 14B and 16 under the lynx tracking harvest strategy. The adjusted season dates are published in the 2017-18 Hunting Regulations and in the 2017-18 Trapping Regulations.

### REGULATION:

Therefore, the following regulations in **5AAC 85.060(4)** and **5AAC 84.270(5)**, **Hunting Seasons and Bag Limits for Lynx and Furbearer Trapping**, are superseded by this emergency order and the following provisions are in effect for the 2017-18 regulatory year:

Unit	Open Season	Bag Limit
<b>5AAC 85.060(4), Hunting seasons and Bag limits for fur animals</b>		
(4) Lynx		
Units 14(A), 14(B), and 16	Dec. 1 – Jan. 31	2 Lynx
<b>5AAC 84.270(5), Furbearer trapping</b>		

Units 14(A), 14(B), and 16

Dec. 15 – Jan. 31

No Limit

All other lynx hunting and trapping regulations remain unchanged and are not affected by this emergency order.

Sam Cotten  
Commissioner

By delegation to: Todd A. Rinaldi  
Regional Management Coordinator

**JUSTIFICATION:**

Lynx are considered scarce in many portions of Units 14A, 14B, and 16, and the population size has not changed substantially during the last 20 years. During regulatory years 2006-2016 the Department shortened the lynx trapping season due to concerns that the lynx population could be adversely affected by overharvest if trapping and hunting seasons were not reduced. Currently lynx populations are in a low cycle in Southcentral Alaska. As a result the trapping and hunting seasons are warranted to minimize the possibility of overharvest.

**DISTRIBUTION:**

This emergency order is distributed to the recipients listed below. Copies are available from Department of Fish and Game offices in Anchorage, Palmer, Soldotna, Homer and Fairbanks.

1. Lieutenant Governor's Office
2. Assistant Attorney General (Board of Game Liaison)
3. Commissioner, Department of Fish and Game
4. Division of Wildlife Conservation
  - Director
  - Deputy Director
  - Assistant Directors
  - Regional Supervisors
  - Area Biologists (Region IV)
  - Regulatory Coordinator
  - Information Services
  - Information Center, Anchorage
  - Information Center, Fairbanks
  - Webmaster
5. Division of Boards
  - Director

- Board of Game
6. Division of Subsistence, Anchorage Regional Supervisor
  7. Department of Public Safety, Fish & Wildlife Protection  
Director  
B Detachment Commander, Palmer  
Field Offices: Anchorage, Matsu West, Soldotna, and Homer
  8. U.S. Fish & Wildlife Service, Regional Director, Anchorage  
Office of Subsistence Management
  9. Magistrates: Palmer
  10. Advisory Committee Chairmen: Anchorage, Matanuska-Susitna, Mt. Yenlo, Tyonek, and  
Upper Susitna
  11. Lake Clark National Park and Preserve
  12. Denali National Park and Preserve
