JUSTIFICATION:

The guideline harvest for mountain goats has been reached in a portion of the RG026 mountain goat hunt area. An emergency order (R1-16-23) has been issued to close the mountain goat hunting season in the area bounded by the Chilkat River on the east, the Kelsall River on the north, the Klehini River on the south, and the Canadian border on the west side at **11:59 P.M., on Wednesday, October 25, 2023.**

Based on aerial survey data, a guideline harvest objective of 1-2 points (male goats=1point, female goats=2points) was established by ADF&G for the area described above. As of Tuesday, October 24, 2023, one male goat has been harvested with report of at least one additional goat harvested for a total of at least 2 points. Because the guideline harvest level has been reached and goats in this area are vulnerable to overharvest, an emergency order has been issued to close the mountain goat hunting season in this area.
