Advisory Announcement

For Immediate Release: September 12, 2023

Mt. Kluchman Closed to Mountain Goat Hunting in Unit 1C

Douglas – Biologists with the Alaska Department of Fish & Game in Douglas announce an early closure to the mountain goat hunting season under the state registration permit hunt RG013, for the Mt. Kluchman portion of Unit 1C located in the Taku River drainage.

Based on our last survey information, this area can support a harvest of 1-2 goat points (male goat = 1 point & female goat = 2 points) that was established for this portion of the RG013 hunt area. As of September 12, 2023, 2 billies were harvested from this area and the guideline harvest for this area has been met. Thus, the area is being closed by Emergency Order effective at 11:59 pm, Wednesday, September 13, 2023.

An Emergency Order (R1-8-23) was issued that closes the mountain goat season in this area on Wednesday, September 13, 2023 @ 11:59 pm.

The remaining area of registration mountain goat hunt RG013, and all other mountain goat hunting regulations in Unit 1C remain unchanged and are not affected by this Emergency Order.
