JUSTIFICATION:

The Alaska Board of Game endorsed the Fortymile Caribou Herd Harvest Plan as a means of guiding harvest of the herd from 2012 through 2018. The annual harvest quota is

allocated seasonally: 75% to the fall hunt and 25%, plus any surplus from the fall quota, to the winter hunt. The winter quota is divided between the 2 road-accessible portions of the hunt area, the Steese Highway–Chena Hot Springs area in Units 20B and 25C (Zone 1) and the Taylor Highway area in Unit 20E (Zone 3). Sixty percent of the harvest quota is allocated to the road-accessible zone with the most caribou within reach of hunters immediately prior to the season opening. This winter's total harvest quota was 298 caribou, of which 198 was allocated to the Zone 1 quota and 100 was allocated to the Zone 3 quota. We expect the quota for all zones to be reached by the date and time of this closure.
