***FISHERY MANAGEMENT REPORT NO. 10-05***

**ALASKA SALMON ENHANCEMENT PROGRAM  
2009 ANNUAL REPORT**

by

Bruce White,  
Alaska Department of Fish and Game, Commercial Fisheries, Juneau

March 2010

Alaska Department of Fish and Game  
Division of Sport Fish, Research and Technical Services  
333 Raspberry Road, Anchorage, Alaska, 99518-1565

The Fishery Management Reports series was established in 1989 by the Division of Sport Fish for the publication of an overview of management activities and goals in a specific geographic area, and became a joint divisional series in 2004 with the Division of Commercial Fisheries. Fishery Management Reports are intended for fishery and other technical professionals, as well as lay persons. Fishery Management Reports are available through the Alaska State Library and on the Internet: <http://www.sf.adfg.state.ak.us/statewide/divreports/html/intersearch.cfm>. This publication has undergone regional peer review.

## **ABSTRACT**

The Alaska Department of Fish and Game oversees and regulates all state and private sector salmon enhancement and rehabilitation projects. Protection of Alaska's natural salmon stocks requires stringent permitting processes. Geneticists, pathologists, and biologists review all projects prior to the issuance of a permit to operate a salmon hatchery, transfer eggs or fish, or release any fish into Alaska waters. Pathology, genetic, coded wire tag, and otolith processing laboratories are maintained to provide information to both Alaska Department of Fish and Game fishery managers, and inseason and technical expertise to the private sector.

In 2009, hatchery operators collected over 1.7 billion eggs and released over 1.4 billion juvenile fish. An estimated 45 million adult salmon from enhancement projects returned. The preliminary total statewide commercial salmon harvest was 162 million fish. There were approximately 148 million salmon harvested in the common property commercial fishery, and an estimated 28 million, or 19%, were produced by the Alaska salmon enhancement program. Enhanced salmon provided an estimated \$62 million or 18% of the exvessel value of the statewide common property commercial harvest. The ocean ranching program employs hundreds of Alaskans in seasonal and fulltime jobs.

Key words: Alaska salmon enhancement program, salmon hatchery, annual report, ocean ranching, private non-profit corporation, Southeast Alaska, Prince William Sound, Cook Inlet, Kodiak, egg take, cost recovery, Chinook, pink, chum, coho, sockeye

## **INTRODUCTION**

Prince William Sound and Southeast Alaska are the regions in the state with the greatest amount of salmon enhancement, and pink and chum salmon are the predominant species produced. The Cook Inlet and Kodiak regions also have salmon enhancement programs. Production levels, in terms of egg takes and releases, have largely remained stable (Figure 1). Enhancement programs have matured and are generally operating at current planned capacities.

The Alaska salmon enhancement program is composed of the following:

- 20 private nonprofit corporation (PNP) owned and operated hatcheries.
- 11 state owned and PNP operated hatcheries.
- 2 state owned and operated hatcheries.
- 3 Federal or Bureau of Indian Affairs hatcheries.
- Streamside incubation projects.

The private nonprofit (PNP) hatchery corporations produce salmon mainly for commercial harvest. The PNPs recoup their operational costs from a special harvest of returning adult fish, called a cost recovery harvest. All other returning adult fish are available for harvest in Alaska's common property fisheries open to the public (sport, personal use, and subsistence). The Alaska Department of Fish and Game (ADF&G) Division of Sport Fish operates two hatcheries, primarily to produce salmonid species intended for both salt and freshwater recreational fisheries at many locations along the coast and in numerous interior lakes. Federal hatcheries in general are lower production facilities that focus on research. Streamside incubation projects enhance stocks of fish inexpensively. Tables 1–39 provide various data for Alaska hatcheries for the years 2008 and 2009.

## HIGHLIGHTS IN 2009

- The preliminary statewide commercial salmon harvest was 162 million fish, with an ex-vessel value estimated at over \$370 million. The Alaska salmon enhancement program produced an estimated 45 million adult salmon (Figure 2). An estimated 28 million enhanced salmon were harvested in the common property commercial fishery, with an estimated preliminary value of \$62 million. The remaining 17 million enhanced salmon were harvested for cost recovery, used for broodstock, or harvested in the personal use/sport/subsistence fishery. Compared to 2008, the preliminary exvessel price paid for pink, chum, coho, sockeye, and Chinook salmon all decreased.
- Statewide, hatchery produced salmon accounted for approximately 18% of the total exvessel value of the common property commercial harvest. Enhanced salmon accounted for 72% of the chum, 21% of the pink, 19% of the Chinook, 16% of the coho, and 5% of sockeye exvessel value.
- Pink and chum salmon dominated the returns of the 5 species of salmon produced (Figure 3). The enhancement program accounted for 59% of the chum, 21% of the pink, 15% of the coho, 16% of the Chinook, and 3% of the sockeye salmon in the statewide common property commercial harvest.

The following is a summary by region. Hatchery locations are shown in Figure 4.

**Prince William Sound:** The enhancement program accounted for an estimated 84% of the salmon in the common property commercial harvest; 91% of the pink, 91% of the chum, 46% of the sockeye, and 7% of the coho salmon in the common property commercial harvest were hatchery produced. In addition, enhanced salmon contributed an estimated \$26 million, or 62% of the value of the common property commercial harvest.

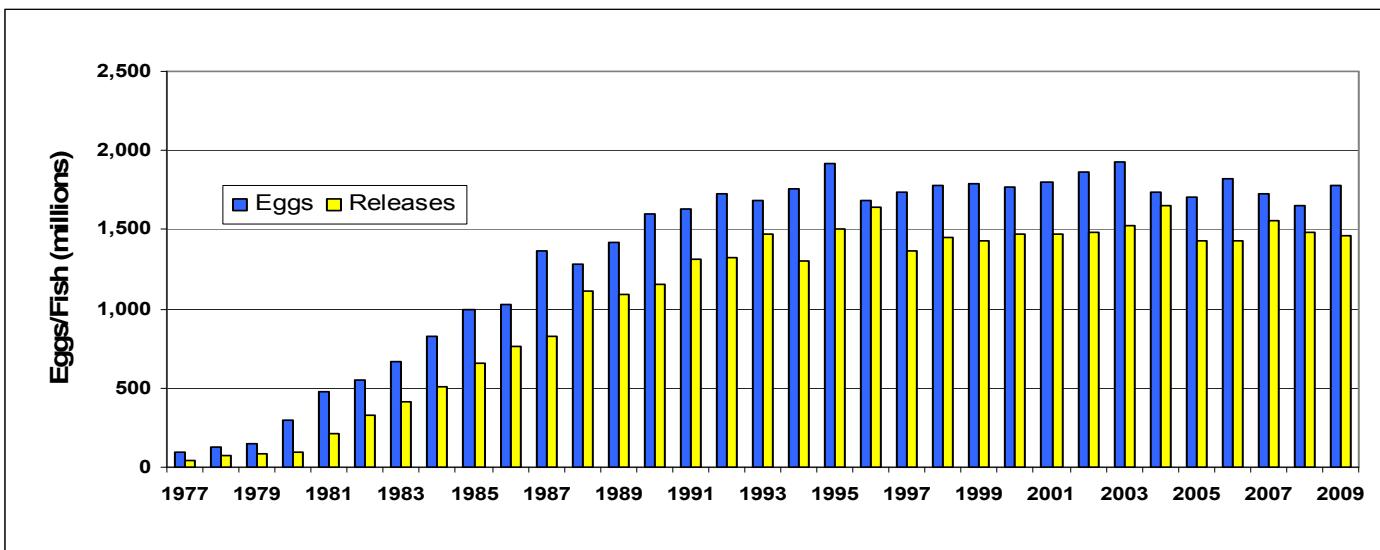

**Southeast:** The enhancement program accounted for 15% of the salmon in the common property commercial harvest; 88% of the chum, 23% of the Chinook, 19% of the coho, 7% of the sockeye and 2% of the pink salmon in the common property commercial harvest were enhanced. Additionally, enhanced salmon contributed an estimated \$28 million or 34% of the value of salmon in the common property commercial harvest.

**Kodiak:** The enhancement program accounted for 25% of the salmon in the common property commercial harvest; 44% of the coho, 26% of the pink, 14% of the sockeye, 10% of the chum salmon in the common property commercial harvest were enhanced. Additionally, enhanced salmon contributed an estimated \$7 million, or 21% of the value of salmon in the common property commercial harvest.

**Cook Inlet:** The enhancement program accounted for approximately 1% of the sockeye salmon in the common property commercial harvest, and contributed an estimated \$185,000, or 1% of the value of salmon in the common property commercial harvest.

- Statewide, sport anglers harvested an estimated 259,640 hatchery-produced fish representing 8 species (Chinook, coho, pink, chum, and sockeye salmon; rainbow trout, arctic char and arctic grayling).
- In 2010, over 51 million fish are projected to return from Alaska hatchery releases.

1985	1 PNP permit issued to Port Camden (#23)			22
1986	1 PNP permit issued to [Beaver Falls (#24) jointly operated ADF&G/SSRAA]	20		22
1987	1 PNP permit issued to Gastineau [renamed Macaulay (#25)]			23
1988	Aquatic Farm Act signed; statute passes allowing contracting of hatchery operations			
	4 state hatcheries contracted to private sector (Cannery Creek, Trail Lakes, Hidden Falls, Kitoi Bay)	16		
	4 PNP permits issued [Cannery Creek (#26), Trail Lakes (#27), Hidden Falls (#28), Kitoi Bay (#29)]			27
	1 state hatchery constructed (Pillar Creek)	17		
	1 PNP permit rescinded [Sandy Bay PNP (#4)]			26
	1 PNP permit given up [Salmon Creek (#14)]			25
1990	CSHB432 becomes law prohibiting finfish farming in Alaska			
	1 PNP permit issued to Bell Island (#30)			26
1991	5 state hatcheries contracted to private sector [Beaver Falls (#24), Main Bay, Tutka, Pillar Creek, Gulkana]	12		31
	3 PNP permits issued [Main Bay (#31), Tutka (#32), Gulkana (#39)]			
	Portions of 6 state hatcheries paid for by private or federal funds			
1992	1 state hatchery closed (Russell Creek)	11		
	2 PNP permits issued [Port Graham (#33), Haines projects (#34)]			33
	1 PNP permit voided [Meyers Chuck (#10)]			32
	Fisheries Rehabilitation, Enhancement and Development Division merged with the Commercial Fisheries Division to form the Commercial Fisheries Management and Development Division			
1993	3 state hatcheries transferred from Commercial Fisheries Management and Development to Sport Fish Division (Broodstock Development Center, Elmendorf, and Ft. Richardson)			

-continued-

Table 7.—Page 3 of 3.

Year	Event	No. of state operated hatcheries	No. private nonprofit (PNP) owned or operated hatcheries	No. of federal hatcheries
	2 state hatcheries contracted to private sector (Crooked Creek and Klawock)	9	34	
	1 state hatchery closed (Big Lake)	8		
1994	1 state hatchery conveyed (Deer Mountain)	7	35	
	3 PNP permits issued [Crooked Creek (#35), Klawock (#36), Deer Mountain (#37)]			
	Ft. Richardson Hatchery merged with Broodstock Development Center	6		
1995	1 PNP hatchery voided Klawock (#36), re-issued under new management Klawock (#38)			35
	1 state hatchery transferred from Commercial Fisheries Management and Development Division to Sport Fish Division (Crystal Lake)			
	1 state hatchery closed (Sikusuilaq)	5		
1996	1 state hatchery contracted [Snettisham (#39)]	4	36	
	1 state hatchery transferred from Commercial Fisheries Management and Development Division to Sport Fish Division (Clear)			
	3 PNP permits revoked [Crittenden Creek (#22), Santa Anna (#21), and Favorite Bay (#18)]			33
1997	1 state hatchery closed (Clear)	3		
	2 state contracted (PNP) hatcheries closed [Beaver Falls (#24), Crooked Creek (#35)]		31	
	1 PNP hatchery closed & reopened under new management [Burnett Inlet (#5, now #40)]		31	
1998	1 PNP hatchery permit issued [Pillar Creek (#41)]			
2000	1 state hatchery contracted to private sector [Crystal Lake Hatchery (PNP permit not issued)]	2	32	
	1 PNP hatchery permit given up [Port Camden (#23)]		31	
2001	1 PNP hatchery permit given up [Kowee Creek (#6)]		30	
2002	No activity			
2003	No activity			
2004	1 PNP hatchery permit issued [Port St. Nicholas (#43)]		31	
2005	No activity			
2006	No activity			
2007	1 PNP hatchery permit issued [Sawmill Creek (#44)]		32	
2008	1 PNP hatchery permit given up [Burro Creek (#12)]		31	
2009	No activity	2	31 <sup>a</sup>	3

<sup>a</sup>There 11 state owned hatcheries that are contracted to PNP operators. Perry Island and Bell Island are not active.

<sup>a</sup> Crystal Lake hatchery is a state-owned facility under partial contract to SSRAA; it does not have a PNP permit.

<sup>b</sup> Port Armstrong is permitted for a total of 5.0 million Chinook and coho salmon, not to exceed 2.0 million Chinook salmon.

<sup>c</sup> Gunnuk Creek hatchery is permitted for a combined 65.0 million pink and chum salmon, not to exceed 20.0 million pink salmon.

<sup>d</sup> Some figures may not total exactly due to rounding.
