Sam Cotten  
Commissioner

By delegation to:

\_\_\_\_\_  
Daniel J. Teske  
Juneau Area Management Biologist

### JUSTIFICATION

Taku River king salmon production is very low at this time. The 2016 inseason projection for the total terminal run indicates the lower end of the escapement goal is unlikely to be met unless harvests of Taku River king salmon are reduced. Therefore, retention of king salmon will be prohibited in the waters of District 11 south of a line from Tantallon Point to Point Salisbury and east of a line from Tantallon Point to Point Arden.
