REGULATION:

JUSTIFICATION:

The Copper River personal use fishery is managed under direction outlined in the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30, and directs the department to establish weekly periods based on Miles Lake sonar counts. During May 30 – June 5, there were 85,052 salmon counted past the Miles Lake sonar. The preseason projection for this period was 111,237 salmon, which results in a deficit of 26,185 salmon. Copper River sockeye salmon migratory timing and the previous five-year average harvest and participation rates indicate sufficient numbers of salmon available to maintain 168 hours of fishing time during the week of June 13 – 19.
