JUSTIFICATION:

In 2018, the king salmon runs throughout Cook Inlet have consistently and significantly underperformed preseason expectations resulting in restrictions and closures of inriver and marine sport fisheries.

Emergency Order No. 2-KS-1-40-18 was issued to prohibit the retention of king salmon while sport fishing in the Kenai River from its mouth upstream to an ADF&G regulatory marker located approximately 300 yards downstream from the mouth of Slikok Creek. In addition, only one unbaited, single-hook, artificial lure may be used when fishing for king salmon in these waters in July. These emergency orders will likely result in an increase in the sport fishing effort and catch of king salmon in the Kasilof River. Therefore, to minimize the effects of conservation actions for the Kenai River on the Kasilof River, the measures in the emergency order are warranted to ensure adequate escapement of Kasilof River late-run king salmon.
