JUSTIFICATION:

The Copper River personal use fishery is managed under direction of the *Copper River Personal Use Dip Net Salmon Fishery Management Plan* (5 AAC 77.591). The plan establishes the season from June 7 through September 30 and directs the department to establish weekly periods based on Miles Lake sonar counts. During July 19 – 25, there were 36,105 salmon counted past the Miles Lake sonar. The preseason projection for this period was 37,424 salmon, which results in a deficit of 1,319 salmon. Copper River sockeye salmon migratory timing and

the previous five-year average harvest and participation rates indicate sufficient numbers of salmon available to maintain 96 hours of fishing time during the week of August 2 – 8.
