## Submit Your Research Ideas

Open Period Ends July 17th

The North Pacific Research Board (NPRB) will release the 2021 Core program Request for Proposals (RFP) in October 2020. Input from the research community is considered by the NPRB Science Panel, Advisory Panel, and Board to highlight areas of particular interest. Public input is welcome throughout the year through the site below. **To have your recommendations considered for the 2021 RFP, please submit recommendations by Friday, July 17th.** Please keep suggestions brief and easily converted to a bullet format. More information on the program is available [here](#)

## NPRB Seeks To Fill Vacant Science Panel Seat

Nomination Deadline Is July 17th

Desired qualifications for the open seat on the Science Panel include expertise in one or more of the following categories: 1) marine fish and/or marine invertebrate ecology, 2) stock assessment and fisheries management. Strong candidates will demonstrate applied expertise, knowledge of pressing fisheries management issues, research needs, and priorities of state and/or federal managers. Members are selected for their expertise, broad perspective, experience, and leadership in areas important to NPRB's research program.

The mission of the North Pacific Research Board is to develop a comprehensive science program of the highest caliber that will further understanding of the North Pacific, Bering Sea, and Arctic Ocean ecosystems, inform effective management of fisheries in these regions, and help to sustain and enhance marine resources. The Science Panel assists the Board in shaping its scientific program. More specifically, the Science Panel advises the Board on science planning, identification of research priorities, evaluation of scientific information relevant to the Board's mission, and review of proposals and technical evaluations received by the Board. For more information, please refer to: <http://www.nprb.org/nprb/about-us/science-panel>.
