Subject: Mariculture Task Force Partnership

Hi Julie,

I am Alyssa Rodrigues and I recently started in the Division of Economic Development as the Development Manager. We just came out with the first Statewide Comprehensive Economic Development Strategy and one of the goals included in that strategy is increasing Alaska's Marine Sector including Mariculture.

I'd like to talk with you about how we at the Division of Economic Development can help support your program and the overall growth of the mariculture industry.

Do you have time to meet and discuss how we might better work together? Next Tuesday works well for me if you have any availability.

Thank you and I look forward to working with you,

-Alyssa
