

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund

List of Funded Projects 2000-2008

Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45008	Increased Remote Release of Chum Salmon - Neets and Anita Bays	1	Increase chum salmon production for Southeast AK fisheries.	Southern Southeast Regional Aquaculture Association (SSRAA)	EN	10/1/01	12/1/03	\$2,796,450	Southeast
45009	Salmon Fresh Express	1	Examine the feasibility of utilizing the AK Marine Highway system to transport salmon products.	ADF&G - Office of the Commissioner	EN	11/1/01	1/2/02	\$12,360	Southeast
45010	Crystal Lake - Year 1	1	Increase Chinook salmon production for Southeast AK fisheries.	ADF&G - Sport Fish Division	EN	7/1/00	6/2/02	\$192,700	Southeast
45026	Troll Salmon Marketing	1	Develop and implement a marketing plan to enhance the value of Southeast AK troll salmon products.	ADF&G - Commercial Fisheries Division	EN	12/1/01	6/30/05	\$998,585	Southeast
45037	Marine Stewardship Council Certification of Sustainable Salmon	1	Seek certification of AK salmon management systems as sustainable under Marine Stewardship Council criteria.	ADF&G - Office of the Commissioner	EN	6/1/02	9/1/02	\$16,367	Statewide
45047	Angoon Fish Buying Station	1	Infrastructure improvements designed to improve handling of the harvest and attract fishermen to the Angoon area.	City of Angoon	EN	6/1/01	6/30/05	\$69,526	Southeast
45049	POWHA: Sockeye Enhancement	1	Increase sockeye production within permitted levels at the Klawock Hatchery as part of a multi-phase approach to restoring fish returns.	Prince of Wales Hatchery Association (POWHA)	EN	6/1/01	6/30/05	\$206,000	Southeast
45051	POWHA: Coho Enhancement - Year 1	1	Infrastructure improvements to increase coho salmon production to permitted level.	POWHA	EN	6/1/01	4/3/03	\$482,676	Southeast
45053	Tuya Lake Sockeye Access	1	Examine the feasibility of removing the natural migration barriers located on the Tuya River.	ADF&G - Commercial Fisheries Division	EN	7/1/01	6/1/02	\$31,300	Southeast
45061	CRITFC: Columbia Hatchery Assessment	1	Identify improved Chinook hatchery strategies for the Columbia River, which will result in additional harvest in Southeast AK	Columbia River Inter-Tribal Fish Commission (CRITFC)	EN	3/1/03	12/1/03	\$8,031	Columbia River
45064	DCED: Fisheries Economic Development Matching Grant Program - Part 2	1	Grants for projects benefiting the salmon industry in Southeast AK will be selected via a competitive application process in order to fund projects that will improve the infrastructure of the salmon fishery and enable Alaskan producers to better compete in changing world markets.	Department of Community and Economic Development (DCED)	EN	6/1/05	7/31/05	\$256,124	Southeast
45073	DCED: Alaska Salmon Marketing Program - Part 3	1	Funds projects that will improve the marketing of AK salmon, including promotional activities, familiarization tours, trade shows, related marketing travel, packaging and label design, product sampling, and personnel costs.	DCED	EN	1/1/04	6/30/05	\$51,500	Statewide
45101	Metlakatla Tamgass Hatchery	2	Provide salmon for the common property resource in Southeast AK.	Metlakatla Indian Community	CD: EN	10/1/01	12/31/02	\$1,030,000	Southeast
45104	Crystal Lake Hatchery Chinook Production - Year 2	2	Provide salmon for the common property resource in Southeast AK.	ADF&G - Sport Fish Division	CD: EN	7/1/03	6/30/05	\$350,000	Southeast
45108	Ketchikan and Southeast Alaska Salmon Wastes and Utilization Studies	2	Provide information for value-added salmon waste products and the reduction of environmental impacts by finding alternative uses.	Department of Environmental Conservation (DEC)	EN	6/1/02	9/30/05	\$450,163	Southeast
45111	Infrastructure Assessment Request for Proposal	2	Conduct interviews/surveys to determine Southeast AK salmon fishing industry infrastructure needs and recommend criteria for selecting project areas and projects.	ADF&G - Commercial Fisheries Division	EN	1/1/03	9/1/03	\$96,145	Southeast
45114	Port Armstrong Chum	2	Produce an new increment of summer chum salmon at the Port Armstrong hatchery at the permitted capacity of 30 million eggs annually through upgrades to the existing facilities.	Armstrong Keta, Inc.	EN	4/1/03	6/30/06	\$1,500,000	Southeast
45116	DCED: Alaska Salmon Marketing Grant Program - Part 1	2	Fund projects that will improve the marketing of AK salmon, including promotional activities, familiarization tours, trade shows, related marketing travel, packaging and label design, product sampling, and personnel costs.	Department of Community and Economic Development (DCED)	EN	1/1/04	6/30/06	\$3,627,491	Statewide
45308	Southeast Regional Comprehensive Salmon Plan - Phase III	2	This project will provide continued protection of wild salmon while setting goals and objectives for enhanced production in the Southeast region.	ADF&G - Commercial Fisheries Division	EN	7/1/02	6/30/04	\$166,003	Southeast
45310	Hidden Falls Chum Expansion	2	Infrastructure improvements to increase chum salmon production and provide for otolith marking capability.	Northern Southeast Regional Aquaculture Association (NSRAA)	EN	7/1/02	6/30/04	\$590,113	Southeast
45311	Hidden Falls Coho Expansion	2	Increase economic opportunity for Southeast AK fisheries.	NSRAA	EN	7/1/02	9/30/04	\$1,024,850	Southeast
45312	Medvejje Chum Salmon Expansion	2	Infrastructure improvements to increase chum salmon production and provide for otolith marking capability.	NSRAA	EN	7/1/02	12/1/03	\$1,077,380	Southeast
45313	Petersburg Area Chum Salmon Fry Rearing Investigations	2	Project will conduct site investigations, identify brood stocks, and ascertain water quality.	NSRAA	EN	7/1/02	6/30/06	\$25,016	Southeast

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund

List of Funded Projects 2000-2008

Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45320	Crescent Lake Sockeye Escapement Estimation	2	Escapement estimates will assist ADF&G with managing this wild/enhanced mixed fishery to ensure sustainable production of wild sockeye salmon from Crescent and Speel Lakes.	Douglas Island Pink and Chum, Inc. (DIPAC)	EN	6/1/02	12/1/03	\$136,372	Southeast
45321	Gastineau Channel/Sheep Creek Net Pen Complex	2	The construction of additional net pens will reduce the densities of fry to acceptable levels, increasing fitness and marine survival of enhanced salmon fry.	DIPAC	EN	7/1/02	3/1/03	\$280,081	Southeast
45324	Coho Pre-Smolt Enhancement Research	2	Research lakes in central and southern Southeast AK for potential coho pre-smolt release sites.	Southern Southeast Regional Aquaculture Association (SSRAA)	EN	10/1/02	12/31/05	\$136,743	Southeast
45325	Port Armstrong Coho Expansion	2	Increase coho production for Southeast AK fisheries.	Armstrong Keta, Inc.	EN	10/1/02	12/31/05	\$649,961	Southeast
45333	Sheldon Jackson Water Quality	2	Improve the quality of the water coming into Sheldon Jackson hatchery, which will increase survival of salmon smolts.	Sheldon Jackson College	EN	2/1/03	6/30/05	\$120,583	Southeast
45337	Marine Stewardship Council 2003 Surveillance Audit	2	Annual surveillance of Marine Stewardship Council certification of AK salmon fisheries as sustainable under Marine Stewardship Council criteria.	ADF&G - Commercial Fisheries Division	EN	6/1/03	6/30/04	\$27,130	Statewide
45338	Alaska Salmon Price Report - Year 1	2	FY 2004 production of the Alaska Salmon Price Report.	Department of Revenue	EN	7/1/03	6/30/04	\$51,500	Statewide
45339	DCED: Alaska Salmon Marketing Grant Program - Part 2	2	Funds projects that will improve the marketing of AK salmon, including promotional activities, familiarization tours, trade shows, related marketing travel, packaging and label design, product sampling, and personnel costs.	Department of Community and Economic Development (DCED)	EN	1/1/04	6/30/06	\$10,300	Statewide
45340	Marine Advisory Program Small Business Assistance	2	These funds will be used to contract with the University of Alaska Fairbanks's Marine Advisory Program for the purpose of providing technical assistance to small and startup fisheries businesses.	DCED	EN	2/1/04	6/30/06	\$200,000	Statewide
45341	Marine Stewardship Council 2004 and 2005 Surveillance Audits	2	In accordance with Marine Stewardship Council requirements, ADF&G will contract with an accredited third party to conduct annual surveillance audits for 2004 and 2005.	ADF&G - Commercial Fisheries Division	EN	1/1/04	6/30/06	\$60,000	Statewide
45343	DCED: Targeted Fisheries Assistance Program - Southeast Shelf Life Extension - Part 2	2	Eligible projects will be those that address the limited shelf life of fresh and frozen salmon from harvesters through the end users, and improve quality handling capabilities for salmon harvesting and tendering vessels.	Department of Community and Economic Development (DCED)	EN	10/1/05	3/2/07	\$350,200	Southeast
45344	DCED: Fisheries Economic Development Program - Part 3	2	Funds projects that will improve the infrastructure of the salmon fishery and enable Alaskan producers to better compete in changing world markets.	DCED	EN	12/1/05	6/30/06	\$1,442,000	Southeast
45201	Crystal Lake - Year 3	3	Provide salmon for the common property resource in Southeast AK.	ADF&G - Sport Fish Division	EN	7/1/02	6/30/03	\$198,481	Southeast
45202	POWHA Coho Project - Years 2 and 3	3	Increase coho production to permitted levels.	Prince of Wales Hatchery Association (POWHA)	EN	7/1/02	6/30/04	\$144,200	Southeast
45209	Craig: Alaska King Salmon Project	3	Explore the feasibility of establishing a Chinook salmon run near Craig and support the work needed to obtain permits.	City of Craig	CD: EN	8/1/02	6/30/04	\$31,109	Southeast
45262	DIPAC: Chum Salmon Rearing Strategies	3	Learn more about the early life history of DIPAC pink and chum fry immediately after release and determine if a modified rearing strategy could improve the marine survival of these fish.	Douglas Island Pink and Chum, Inc. (DIPAC)	CD: EN	4/1/04	12/31/05	\$199,820	Southeast
45264	SSRAA: Increased Summer Chum	3	Provide additional hatchery chum production, worth approximately \$1.3 million in annual harvest value.	Southern Southeast Regional Aquaculture Association (SSRAA)	CD: EN	6/1/03	6/30/04	\$600,180	Southeast
45267	DCED: Fisheries Economic Development Program for 2003	3	Fund projects that will improve the infrastructure of the salmon fishery.	Department of Community and Economic Development (DCED)	EN	7/1/03	6/30/07	\$4,468,952	Southeast
45269	Marine Stewardship Council 2005 Recertification	3	In accordance with Marine Stewardship Council requirements, ADF&G will contract with an accredited third party to conduct the five-year recertification inspections planned for 2006.	ADF&G - Commercial Fisheries Division	EN	1/1/05	6/30/07	\$147,026	Statewide
45284	DCED: Salmon Marketing Program - Part 4	3	Funds projects that will improve the marketing of Alaskan salmon, including promotional activities, familiarization tours, trade shows, related marketing travel, packaging and label design, product sampling, and personnel costs.	Department of Community and Economic Development (DCED)	EN	1/1/04	6/30/07	\$660,078	Southeast

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund
List of Funded Projects 2000-2008
Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45286	Alaska Seafood Marketing Institute: Wild Alaska Salmon Campaign	3	Create a marketing and consumer education campaign using various media: national TV networks, cable TV, national magazines, and newspapers. This will include initial research to plan the strategy for a series of campaigns throughout 2004 and	Alaska Seafood Marketing Institute (ASMI)	EN	10/1/04	6/30/06	\$2,060,000	Statewide
45287	Craig: Port St. Nick Hatchery	3	Construct a small Chinook enhancement facility adjacent to the City of Craig water treatment plant. Initially produce 250,000 Chinook smolts for release into the Port St. Nicholas River, with an estimated 6,250 adult returns, at an expected \$100 value per fish to the local economy.	City of Craig	CD: EN	11/1/04	6/30/07	\$173,958	Southeast
45292	DCCED: Targeted Fisheries Assistance Program - Southeast Shelf Life Extension	3	Eligible projects will be those that address the limited shelf life of fresh and frozen salmon from harvesters through the end users. Potential awards will include demonstration systems in the water or ice used in a processing plant, project using modified atmosphere packaging for fresh shipments, project moving shelf-life-extended fillets overland, and projects upgrading chilling capability of harvesting, tendering, or transporting vessels.	Department of Commerce, Community, and Economic Development (DCCED)	EN	10/1/05	6/30/07	\$973,855	Southeast
45296	Amlaga Harbor Net Pen Complex	3	Overcrowding has resulted in density-related problems that threaten the health and survival of rearing salmon fry. The site is also vulnerable to severe spring storms which threatens the safety and integrity of the net pen complex. Development of a new pen complex, with more pens to reduce rearing densities and better engineering to withstand extreme weather conditions, is critical in order to insure the long-term success of the program.	Douglas Island Pink and Chum, Inc. (DIPAC)	EN	7/1/06	6/30/07	\$412,000	Southeast
45297	MOA: Chester Creek Aquatic Ecosystem Restoration, Westchester Lagoon to Cook Inlet - Phase 1, Part 1	3	Improve fish passage at the Chester Creek outfall to the Knik Arm of Cook Inlet. The Chester Creek Aquatic Ecosystem Restoration Project has two phases: Phase one - utility relocation/partial channel construction, and Phase two - channel restoration with a culvert installation to restore the Chester Creek channel allowing for increased fish passage.	Municipality of Anchorage (MOA)	CD: EN	1/15/06	6/30/07	\$1,941,748	Southcentral (Cook Inlet)
45298	Fisheries Long Term Business Plan	3	Funds will be used to generate a strategic plan that will advise the State of Alaska in fulfilling its charge to maximize the value of AK salmon resources to Alaskans.	Alaska Seafood Marketing Institute (ASMI)	EN	10/20/06	6/30/07	\$77,250	Southeast
45356	DCCED: Targeted Fisheries Assistance Program - Southeast Shelf Life and Vessel Quality - Part 4	4	Eligible projects will be those that address both the limited shelf life of fresh and frozen salmon from harvesters through the end users, and the quality handling capabilities for salmon harvesting and tendering vessels in Southeast AK.	Department of Commerce, Community, and Economic Development (DCCED)	EN	7/1/07	5/30/08	\$367,243	Southeast
45357	DCCED: Alaska Salmon Marketing Grant Program	4	Grantees were selected via a competitive application process intended to assist Alaskan salmon marketers to fund industry's "best thinking" on how to most effectively market wild salmon from Southeast AK.	DCCED	EN	12/5/07	06/30/08	\$276,339	Southeast
45358	DCCED: Fisheries Economic Development Grant Program - Part 4	4	Funds projects that will improve the infrastructure of the salmon fishery and enable Alaskan producers to better compete in changing world markets.	DCCED	EN	12/5/07	06/30/08	\$545,976	Southeast
45359	DCCED: Targeted Fisheries Assistance Program - Southeast Salmon Vessel Quality Upgrade Program	4	Improving chilling at the point of capture is a primary objective. Eligible projects include refrigerated seawater systems, hold insulation, freezers, and other quality upgrades.	DCCED	EN	12/7/07	06/30/08	\$375,185	Southeast
45360	ASMI: Alaska Salmon Sustainability Education	4	The Alaska Seafood Marketing Institute (ASMI) has identified a need to provide sustainability information to seafood consumers. This project will promote wild Alaska salmon and salmon products with a campaign designed to educate the retail trade and the consumer regarding sustainably managed Alaska salmon in the	Alaska Seafood Marketing Institute (ASMI)	EN	1/14/08	06/30/08	\$461,440	Statewide

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund

List of Funded Projects 2000-2008

Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45361	Marine Stewardship Council 2007-2008 Annual Surveillance Audit	4	In October 2007, AK's commercial salmon fisheries were recertified as in compliance with the Principles and Criteria for Sustainable and Well Managed Fisheries set forth by the Marine Stewardship Council. As part of the recertification, ADF&G agreed to contract with a third party accredited by Marine Stewardship Council to conduct required annual surveillance audits. The first of these audits will be performed in the winter/spring of 2007 - 2008, and, in addition to the standard review of fishery compliance, will include a focus on progress in meeting recommendations and conditions found in the recently completed five-year recertification by Scientific Certifications Systems.	ADF&G - Commissioner's Office	EN	11/15/07	06/30/08	\$31,284	Statewide
45413	YRDFA: Fish Wheel Training	4	The candidate for new fishwheel operator needs to be trained in operation skills of both the fishwheel and the video monitoring equipment. This project will enable training to occur by the previous operator of the fishwheel and compensate him for his time.	Yukon River Drainage Fisheries Association (YRDFA)	CD: EN	5/24/05	6/30/06	\$2,258	AYK (Yukon River)
45414	YRDFA: Quality Training for Yukon Fishermen - Part I	4	Through trainings and informational sessions, commercial fishermen on the Yukon River will be provided with information means and methods to increase the quality of their catch. Meetings will also take place with the processors to learn more about their practices in order to create a working partnership towards progress at the different levels of fish handling.	YRDFA	CD: EN	6/1/05	6/30/07	\$9,891	AYK (Yukon River)
45415	Coffman Cove: Chinook - Phase II	4	The goal of this project is to increase local Chinook catch near the City of Coffman Cove for the economic benefit of the community. The intent is to operate a release sight for 0-age Chinook from net pens in saltwater in Coffman Bay. This project activity includes partial retrofitting of Port St. Nicholas incubation room and rearing area to accommodate Coffman Cove production for 2006, as well as the acquisition and set-up of net pens.	City of Coffman Cove	CD: EN	9/22/06	6/1/08	\$202,331	Southeast
45416	Southeast Region Fresh Seafood Air Transportation Project	4	The objective of this project is to increase southbound airfreight capacity for salmon. This means refrigerated or insulated cargo capacity and provision of service at appropriate and predictable times. An association of processors has expressed an interest in combining their efforts and products to establish a program which will attract additional Southeast AK airfreight capacity. In addition, there are other parties that would be interested in airfreight improvements including various gear groups, individual catcher-shippers, and transportation companies.	Southeast Conference	EN	12/10/06	6/30/07	\$36,050	Southeast
45417	Anchorage Hatchery Upgrades	4	Mitigate for loss of heat at the Fort Richardson Hatchery through the design and installation of a supplemental heating system. A qualified engineering firm will be engaged to conduct a full study of the Fort Richardson/Elmendorf Hatchery program as well as a possible new Fairbanks hatchery, and to develop facility design options.	ADF&G - Sport Fish Division	CD: EN	7/1/03	12/31/04	\$966,422	Southcentral (Cook Inlet)
45419	Sport Fish Hatchery Development	4	Determine the effect of groundwater iron and manganese on cultured fish and select an appropriate removal method for operating a large hatchery. Engage a qualified engineering firm to conduct a full study of the Sport Fish hatchery program, including a possible new Fairbanks hatchery, and develop design options.	ADF&G - Sport Fish Division	CD: EN	7/1/03	6/30/05	\$492,920	AYK (Interior)

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund

List of Funded Projects 2000-2008 Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45438	ASLC: New Technologies for Increasing Smolt Survival in Pacific Salmon - Year 1	4	ASLC, in collaboration with MariCal, Inc. of Portland, Maine, ADF&G, and Cook Inlet Aquaculture Association, proposes to rear and release 275,000 coho smolt from the ASLC into Resurrection Bay. The specific objective is to evaluate the potential for new technology developed by MariCal, Inc. to increase ocean survival and adult returns of coho and Chinook salmon.	Alaska SeaLife Center (ASLC)	CD: EN	3/8/04	12/31/06	\$990,000	Southcentral (Cook Inlet)
45440	ADF&G Vessel Maintenance Facility - Construction	4	Construct a vessel maintenance facility located in Juneau, AK to be used for the maintenance and repair of vessels and the design and maintenance of field equipment and supplies.	ADF&G - Division of Administration	EN	4/1/04	12/30/06	\$681,880	Southeast
45454	DCED: Asian Salmon Marketing	4	Fund a development specialist to work in Korea, Taiwan, and Hong Kong to facilitate sales by introducing buyers and sellers with a focus on moving large volumes from the most troubled salmon species (pink and chum). Educate the public, restaurant, institutional consumers, and importers about the advantages of AK's products, and educate suppliers about Asian markets.	Department of Community and Economic Development (DCED)	CD: EN	3/15/04	10/2/07	\$340,033	Statewide
45459	CIAA: Salmon Enhancement Project - Part 1	4	Increase salmon production (42,700,000 pinks; 13,800,000 sockeye; and 400,000 coho), raceway improvements at Trail Lakes Hatchery, preliminary assessment of cooperative enhancement efforts with Port Graham, adult salmon population monitoring activities, smolt evaluation at Big Lake, and update the Cook Inlet Regional Salmon Enhancement Plan for 2005-2025.	Cook Inlet Aquaculture Association (CIAA)	CD: EN	5/5/04	12/31/06	\$990,000	Southcentral (Cook Inlet)
45460	DCCED: Fisheries Economic Development Program - 2004	4	Funds projects benefiting the salmon industry in Southeast AK selected via a competitive application process to fund projects that will improve the infrastructure of the salmon fishery and enable Alaskan producers to better compete in changing world markets.	Department of Commerce, Community, and Economic Development (DCCED)	EN	7/1/03	5/30/08	\$841,040	Southeast
45466	MOA: Ship Creek Fish Passage - Phase 1	4	Enhance fish passage in Ship Creek by removing an existing embankment, restoring the channel to its natural morphology, and building a bridge to replace the road crossing. Current road crossing is supported by three collapsing arch culverts.	Municipality of Anchorage (MOA)	CD: EN	9/1/04	12/31/06	\$1,792,200	Southcentral (Cook Inlet)
45467	DCCED: Fisheries Revitalization Strategy Program Analysis	4	Develop economic analysis on the State's impact on the salmon industry's business environment and increase involvement in certain grant activities under the Fisheries Revitalization Strategy to improve the likelihood of success.	Department of Commerce, Community, and Economic Development (DCCED)	CD: EN	11/16/04	6/30/08	\$109,093	Statewide
45473	DEC: Laboratory Equipment	4	DEC's Environmental Health Lab is tasked with analyzing foods for environmental pollutants. The Lab's existing analytical equipment is no longer serviceable and is being replaced. SSSF funding will be used to finance a portion of the cost of acquiring the new equipment used for salmon analysis.	Department of Environmental Conservation (DEC)	EN	3/15/05	6/30/06	\$149,273	Statewide
45477	Alaska Salmon Price Report - Year 2	4	Produced by the Department of Revenue, the report comes out every four months and contains wholesale salmon values and pounds by region, by month and by product form.	Department of Revenue	EN	7/1/04	6/30/06	\$103,000	Statewide
45478	Coffman Cove: Enhancement Feasibility - Phase 1	4	Initiate feasibility studies for permitting, construction, and maintenance of a small Chinook enhancement facility. The proposed facility would produce 250,000 Chinook smolt for release into a local watershed and is expected to be operated in partnership with the already-permitted Craig Chinook salmon hatchery. Chinook fry are expected to be incubated and reared in Craig then transported to Coffman Cove for final grow-out and release. Project may result in an estimated 6,250 adults returning annually.	City of Coffman Cove	CD: EN	6/1/05	8/31/06	\$45,168	Southeast
45480	DCCED: Canned Salmon Export Aid Demonstration Project	4	DCCED will procure three containers of canned pink and chum salmon which will be shipped to three separate countries. In a companion project funded by another source, the food will be distributed to end users via private volunteer organizations.	Department of Commerce, Community, and Economic Development (DCCED)	CD: EN	9/19/05	11/30/07	\$124,594	Statewide

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund
List of Funded Projects 2000-2008
Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45501	Fairbanks Hatchery Study and Design - Phase I	5	Complete a functional design for a hatchery to be constructed within the City of Fairbanks. The design of existing facilities, combined with limitations of water, heat, age, and a deteriorating infrastructure, have recently made it impossible to satisfy current and projected production needs.	ADF&G - Sport Fish Division	CD: EN	7/1/04	6/30/08	\$3,332,560	AYK (Interior)
45502	Adak Boat Harbor	5	Construct Phase I of a new small boat harbor in Adak to provide dock and moorage for boats that will participate in developing fisheries. Provide for the dredging and placement of open cell pile dock with fendering system and adjacent dredging.	City of Adak	CD: EN	7/1/04	6/30/07	\$1,484,217	Westward
45503	SRA: Planning for Purse Seine Stabilization Program	5	Refine and revise the draft SRA seine permit reduction plan in advance of seeking substantial grant and loan funds with which to accomplish the buyback. Legal review and outreach with the effected permit holders.	Southeast Revitalization Association (SRA)	CD: EN	9/1/04	12/31/05	\$148,422	Southeast
45506	MOA: Ship Creek Fishing Access	5	Removing failing culverts at Ship Creek will eliminate an access point to the creek bed at lower tide stages. Replacing this access will be needed to maintain angler participation. Plan the location of angler improvements so they mesh with long term goals for this area.	Municipality of Anchorage (MOA)	CD: EN	10/1/04	6/30/09	\$190,550	Southcentral (Cook Inlet)
45507	MOA: Ship Creek Fish Passage - Phase II	5	<i>Continue efforts from project 45466.</i> This phase II portion of the project will complete the access area adjacent to the bridge. In addition, the bridge deck will receive waterproofing and pavement to prolong the life of the span.	MOA	CD: EN	8/1/05	6/30/09	\$295,394	Southcentral (Cook Inlet)
45508	MOA: Anchorage Creeks - Community Development Manager	5	Staff a position responsible for oversight, coordination, and outreach regarding the PCSRF earmarked for the MOA. A part-time administrative position will be staffed to provide support and serve as a liaison with the Project Management and Engineering Department.	MOA	CD: EN	10/1/05	6/30/09	\$595,259	Southcentral (Cook Inlet)
45539	YRDFA: Kaltag Fishery Development	5	Construct a temporary primary salmon processing facility. Provide fishermen with a market for their salmon harvests in 2005 and generate information necessary to conduct a feasibility analysis of utilizing an unfinished fish processing building in Kaltag, AK.	Yukon River Drainage Fisheries Association (YRDFA)	CD: EN	5/24/05	6/30/06	\$70,944	AYK (Yukon River)
45540	YRDFA: Lower Yukon River Marketing Program	5	Provide two processors on the Lower Yukon River with funding to upgrade their marketing materials, visit customers, carry out promotional activities, and attend trade shows. Packaging materials will be purchased for shipping and frozen samples will be kept for out-of-season promotional opportunities. Branding will also take place through logo, fish tag, and label development.	YRDFA	CD: EN	5/24/05	6/30/06	\$22,889	AYK (Lower Yukon)
45541	YRDFA: Marketing Yukon River Caviar	5	Prepare informational literature and posters that promote Wild Yukon River salmon caviar for high value niche market development. Analyze a sample amount of already-processed roe for the suitability to repackage as salmon caviar. Distribute sample packages to potential customers. Develop an internet site and offer contact information and cross links for direct sales of Wild Yukon River salmon caviar.	YRDFA	CD: EN	5/24/05	6/30/06	\$53,970	AYK (Yukon River)
45543	YRDFA: Yukon River Regional Marketing Program	5	Develop new markets for Yukon River salmon and build brand recognition through marketing efforts that will promote the Yukon River salmon name. Written marketing materials will be developed and made available to every salmon producer on the Yukon River. Information packets will be distributed to grocers, restaurants, and distributors nationwide. Individual producers will have all materials available for their own direct marketing efforts.	YRDFA	CD: EN	5/24/05	6/30/06	\$74,686	AYK (Yukon River)

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund
List of Funded Projects 2000-2008
Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45548	CIAA: Salmon Enhancement Project - Part 2	5	Project objectives include stocking juvenile salmon to produce adult salmon; cooperative enhancement efforts between Port Graham Hatchery, Eklutna Hatchery, and Tutka Bay Lagoon Hatchery to strengthen and/or develop sockeye salmon runs by collecting and incubating eggs and/or releasing sockeye salmon; conducting adult salmon population monitoring; continued involvement in Big Lake Enhancement Project through gamete collection, incubation, and fry release; continued work with the Kenai Watershed Forum to identify and implement small stream habitat projects; and maintaining and upgrading the productive ability of Trail Lakes Hatchery.	Cook Inlet Aquaculture Association (CIAA)	CD: EN	6/1/05	12/31/07	\$984,530	Southcentral (Cook Inlet)
45050	AFDF: Salmon Offal Peat Composting Study	6	This project will improve a process whereby naturally-composting salmon offal is converted into environmentally-friendly high and consistent quality salmon peat organic compost and leachate.	Alaska Fisheries Development Foundation (AFDF)	CD: EN	6/1/08	6/30/09	\$37,237	Southcentral (Cook Inlet)
45056	AFDF: Salmon Oil Product Development	6	This project will investigate the use of adsorption technology to produce purified salmon oil for human consumption, and will develop a method applicable for use by Alaska's fish meal processors, salmon processors, and entrepreneurs. Complete project results will be made available via the AFDF, UAF FITC, and LSU AgCenter websites: www.afdf.org ; www.lsuagcenter.com ; www.sfos.uaf.edu/fitc/ .	AFDF	CD: EN	7/1/08	6/30/09	\$81,226	Statewide
45066	AFDF: BSAI CP Salmon-Excluder Trawl Design	6	This project will conduct at-sea tests of the "flapper panel" design in the catcher-processor fleet. Currently, a "flapper" design that employs a short, inverted, U-shaped section of diamond-mesh panel to serve as a collapsible liner has shown the most potential for excluding salmon on smaller catcher vessels. The "flapper panel" approach has not been tested and evaluated in the larger vessels of the catcher/processor fleet.	AFDF	CD: EN	7/15/08	12/31/08	\$100,858	Statewide
45068	AFDF: Symphony of Seafood	6	This project will support the Alaska Fisheries Development Foundation (AFDF) efforts to stimulate and recognize innovation by the industry in salmon products, expose market interests to this innovation, and assess comparable innovative efforts. Project funding also supports Alaskan participation in regional and national fora and expositions showcasing innovation in the handling, processing, packaging, and quality control measures of salmon. <i>This funding allows continuation of work begun in AKSSF</i>	AFDF	CD: EN	10/15/08	6/30/09	\$57,570	Statewide
45069	AFDF: Co-Product Enhancement	6	This project will expand the use of recovered salmon proteins and oils in high quality human specialty foods through research support for product development and focus groups. A limited amount of demonstration in the market place is planned as follow-on to focus groups. The goal is to demonstrate successful prototypes in increasing the utilization of flesh and oils from salmon processing and by-product recovery.	AFDF	CD: EN	11/17/08	6/30/09	\$34,889	Westward (Kodiak)
45603	AFDF: Gulf of Alaska Salmon Bycatch Avoidance and Reduction	6	Explore techniques for salmon bycatch reduction and avoidance in the Gulf of Alaska groundfish fisheries.	AFDF	CD: EN	1/1/06	6/4/07	\$25,531	Gulf of Alaska
45604	AVI: Salmon Enhancement/Restoration Technical Assistance	6	This project will be used to carry out the necessary preparatory tasks for the field implementation of three salmon enhancement/restoration projects.	Alaska Village Initiatives (AVI)	CD: EN	1/1/06	6/30/09	\$434,459	Statewide

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund
List of Funded Projects 2000-2008
Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45606	YRDFA: Department of Environmental Conservation-Approved Fish Camp Roe Processing Facilities	6	This project will provide materials and plans to build Department of Environmental Conservation-compliant facilities to roe fishers on the Yukon River. These facilities will allow Yukon River fishers to continue to sell roe legally. The roe fishery provides a vital source of income to many fishers on the middle Yukon River. Without these facilities the roe fishery will not operate; financial and technical assistance is necessary to make these facilities available to Yukon River fishers.	Yukon River Drainage Fisheries Association (YRDFA)	CD: EN	5/1/06	4/30/07	\$20,852	AYK (Yukon River)
45608	CIAA: Salmon Enhancement Project - Part 3	6	Continue cooperative enhancement efforts between Port Graham Hatchery, Eklutna Hatchery, and Tutka Bay Lagoon Hatchery to strengthen and/or develop sockeye salmon runs. Conduct adult salmon population monitoring. Continue work with Kenai Watershed Forum to identify and implement small stream habitat	Cook Inlet Aquaculture Association (CIAA)	CD: EN	6/1/06	6/30/09	\$979,847	Southcentral (Cook Inlet)
45625	Fairbanks Sport Fish Hatchery Project - Phase II	6	The construction of a new Fairbanks hatchery, to take over production for Region III stocking projects, has been proposed as part of the overall planning for the future of the Sport Fish hatchery system. The requirement for this facility is to meet angler demand in the Region III area for the next 20 years. The new facility will be built to increase the size and the numbers of fish now allocated for the interior area. The anticipated tasks for the FY 2005 funding will target the design contract and contract management for the project.	ADF&G - Sport Fish Division	CD: EN	3/1/06	3/31/10	\$3,300,145	AYK (Upper Yukon River)
45639	NSRAA: Sawmill Creek Hatchery - Phase 1	6	Permit and plan future construction of a hatchery at Sitka's Sawmill Cove Industrial Park with capacity to rear and release up to 2.5 million coho smolt to the ocean annually. Operational costs will be borne by NSRAA during the first several years until sufficient adults return to the facility, which will then pay the annual operating costs through the sale of a portion (20%) of the total return.	Northern Southeast Regional Aquaculture Association (NSRAA)	CD: EN	8/28/06	12/31/07	\$77,250	Southeast
45642	MOA: Chester Creek Aquatic Ecosystem Restoration, Westchester Lagoon to Cook Inlet - Phase 1, Part 2	6	Improve fish passage at the Chester Creek outfall to the Knik Arm of Cook Inlet. The Chester Creek Aquatic Ecosystem Restoration Project has two phases: Phase 1 - utility relocation/partial channel construction and Phase 2 - channel restoration with a channel allowing for increased fish passage.	Municipality of Anchorage (MOA)	CD: EN	1/15/06	5/30/08	\$362,362	Southcentral (Cook Inlet)
45646	ASLC: Restore Salmon at Resurrection Bay - Year 3	6	The ASLC, in collaboration with MariCal, Inc., a marine technology company based in Portland, Maine, ADF&G, and Cook Inlet Aquaculture Association, propose to enhance and restore salmon runs in Resurrection Bay through a coordinated enhancement and research program involving releases of hatchery Chinook, coho, and sockeye salmon smolt. Additional research will focus on factors that affect sockeye salmon production in natural systems. Objectives are established that may result in natural production of sockeye from Bear Lake, production that was extirpated in the 1960's, and we hope will once again compliment the salmon fisheries of the area.	Alaska SeaLife Center (ASLC)	CE/EN	9/19/06	6/30/10	\$694,132	Southcentral (Cook Inlet)
45647	Coffman Cove: Chinook - Phase III	6	The goal of this project is to increase local Chinook catch near the City of Coffman Cove for the economic benefit of the community. The intent is to operate a release site for 0-age Chinook from net pens in saltwater in Coffman Bay. This project activity includes testing Sea-Ready technology applicable to Coffman Cove, final retrofitting of Port St. Nicholas incubation room and rearing area to accommodate Coffman Cove production for 2007, as well as the continued acquisition, installation, and set-up of net pens, mechanical oxygenation feature, and other equipment.	City of Coffman Cove	CD: EN	10/17/06	6/30/09	\$489,927	Southeast

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund

List of Funded Projects 2000-2008

Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45648	Sawmill Cove Hatchery - Phase II	6	These funds will be used to design, construct, and equip a hatchery at Sitka's Sawmill Cove Industrial Park with the capacity to rear and release up to 2.0 million coho smolt to the ocean, annually. This program is designed to produce summer-run coho, half of which are expected to be caught by the troll fleet in late-May, June, and July.	Northern Southeast Regional Aquaculture Association (NSRAA)	CD: EN	3/11/07	6/30/09	\$2,372,383	Southeast
45652	YRDFA: Regional Marketing Program - Part II	6	Continue to develop new markets for Yukon River Salmon and to build brand recognition through marketing efforts that will promote the Yukon River salmon name.	Yukon River Drainage Fisheries Association (YRDFA)	CD: EN	5/17/06	7/31/07	\$69,483	AYK (Yukon River)
45653	YRDFA: Kaltag Fisheries Development Project - Part 2	6	Assist the community of Kaltag to seek additional funds for completion of the fish plant through the Federal Emergency Disaster Assistance. In addition, provide technical assistance with soliciting tenants to lease the plant and any additional assistance related to fisheries business management.	YRDFA	CD: EN	6/1/06	9/1/07	\$17,167	AYK (Yukon River)
45655	YRDFA: Sub-Regional Yukon River Marketing Program	6	Support a local processor as it develops a marketing program comprised of magazine ads, website promotions, and mail-order catalogs targeted at different demographic groups.	YRDFA	CD: EN	7/1/06	6/30/07	\$11,444	AYK (Upper Yukon)
45656	YRDFA: Quality Training for Yukon Fishermen - Part 2	6	Through trainings and informational sessions, commercial fishermen on the Yukon River will be provided with information means and methods to increase the quality of their catch. Meetings will also take place with the processors to learn more about their practices in order to create a working partnership towards progress at the different levels of fish handling.	YRDFA	CD: EN	6/1/05	6/30/07	\$4,495	AYK (Yukon River)
45657	YRDFA: Yukon River District Y-2 Fisheries Development	6	This project is an economic development opportunity project to assist with the establishment of a commercial chum salmon fishery on the lower Yukon River and strengthen the long-term economic viability of Yukon River salmon fishing communities. The objective of this project is to revitalize a commercial chum fishery in Yukon River District Y-2, a goal important to both ADF&G and to the YRDFA's Board of Directors.	YRDFA	CD: EN	4/1/07	1/31/08	\$20,600	AYK (Lower Yukon)
45680	AFDF: Perishable Handling Container Tests	6	This project will lease the prototype container for five months to conduct test transports of salmon in the refrigerated container to determine the appropriateness of the technology for different high quality value-added salmon products. Different airports throughout Alaska will be tested employing different carriers capable of handling LD3-containers. Shipment via truck may be completed to test the multi-modal approach in bringing salmon from processors to airports, particularly on the Kenai Peninsula.	Alaska Fisheries Development Foundation (AFDF)	CD: EN	5/8/08	10/31/08	\$59,032	Statewide
45689	AFDF: Product Innovation and Technology	6	This project will support the AFDF efforts to recognize innovation by the industry in salmon products, expose market interests to this innovation, and assess comparable innovative efforts with competition from international interests and farmed salmon. This project will also support technology transfer by allowing participation in national and international forums and expositions showcasing innovation in the handling, processing, packaging, and quality control measures of salmon. <i>This project is one of two that continues work begun in SSSF project 45622; see also project 45688.</i>	AFDF	CD: EN	10/10/07	6/30/08	\$57,177	Statewide
45150	AFDF: Salmon Co-Product - Phase 2	7	AFDF, as an industry-based foundation, will work with its members and the salmon processing industry in researching and developing methods to optimize the use of salmon and to strive towards full utilization by increasing the recovery of salmon processing waste and by developing byproducts. This project involves technology and innovation, and offers significant long-term benefit to the industry's financial bottom line.	Alaska Fisheries Development Foundation (AFDF)	CD: EN	9/24/07	6/30/08	\$464,735	Statewide

Salmon Enhancement Projects - Alaska Sustainable Salmon Fund
List of Funded Projects 2000-2008
Current to 12/31/08

Project Number	Project Title	Yr	Project Description	Agency / Organization	NOAA Objective	Start Date	End Date	Total SSSF Funds	Location
45152	AFDF: Mechanical Recovery of Salmon Mince	7	AFDF will work with an industry innovator and a proven equipment fabricator to create a mechanical salmon bone/flesh separator that will produce a high quality coarse-grained mince suitable for gourmet and "high-end" food applications. The process will focus on low pressure to more closely resemble the manual process of creating "spoon meat" from salmon, i.e. mince. www.afdf.org .	AFDF	CD: EN	10/1/08	12/31/09	\$58,015	Statewide
45153	AFDF: Alaska Salmon Co-Products - the Future	7	This project will develop a six-minute DVD in an 'edu-tainment' format that will highlight the opportunities for producing several salmon co-products: oils (human grade, for pets, and industrial uses); biofuels that can be used to power industrial boiler and other equipment including boats and cars; and 'other' categories, including salmon skins, gels, films, and uses in the pharmaceutical and cosmetic industries. Project results will be made available to the public on the AFDF website (www.afdf.org).	AFDF	CD: EN	10/1/08	06/30/09	\$33,990	Statewide
45711	ASMI: National Consumer Education Campaign	7	ASMI will launch a consumer television education campaign on the Food Network (cable TV).	Alaska Seafood Marketing Institute (ASMI)	EN	10/31/06	6/30/07	\$686,917	Statewide
45723	SRA: Southeast AK Fleet Consolidation Plan	7	The SRA, in concert with the Commercial Fisheries Entry Commission, will implement a consolidation plan to permanently retire an estimated ten percent (10%) of the permits issued for the	Southeast Revitalization Association (SRA)	CD: EN	2/15/08	06/15/08	\$2,958,928	Southeast
45742	ASLC: Resurrection Bay Salmon Restoration, Enhancement, and Research - Year 4	7	This project will work to enhance and/or restore Chinook, coho, and sockeye salmon runs in Resurrection Bay through a coordinated program involving research, hatchery stocking, and habitat restoration of natural salmon producing systems. <i>This project continues SSSF project 45536 and 45646.</i>	Alaska SeaLife Center (ASLC)	CD: EN	1/4/07	6/30/11	\$1,376,854	Southcentral (Cook Inlet)
45784	Otolith Marking at Gunnuk Creek Hatchery	7	This project is designed to provide information critical to fisheries managers and provide better quantification of contributions to common property fisheries. The project will provide management with the ability to thermally mark otoliths for chum (and possibly coho) production. This will provide hatchery personnel and ADF&G management staff with a valuable tool for tracking returns through interception fisheries to ensure broodstock needs are met.	Kake Nonprofit Fisheries Corporation - Gunnuk Creek Hatchery	EN	4/15/07	6/30/08	\$90,694	Southeast
45786	CIAA: Salmon Enhancement Project - Part 4	7	The CIAA Salmon Enhancement Project - Part 4 will: 1) provide juvenile sockeye and coho salmon for stocking to supplement future Cook Inlet (Area H) adult salmon returns; 2) enumerate the escapement and assess the population size of sockeye and coho salmon in selected streams of the Cook Inlet drainage where current estimates are lacking or unavailable; and 3) replace the deteriorating ADF&G-owned and CIAA-operated Bear Creek weir building and remodel fish handling equipment at the Bear Creek weir site to improve the evaluation of salmon enhancement activities and provide a safe environment for educating local students and the public on the salmon resource.	Cook Inlet Aquaculture Association (CIAA)	CD: EN	6/1/07	6/30/09	\$805,161	Southcentral (Cook Inlet)
45787	CIAA: Salmon Enhancement Project - Fish Ladder	7	The Paint River fish ladder, constructed in the early 1990s but never operated, provides access to salmon spawning and rearing habitat in the Paint River drainage in Lower Cook Inlet. CIAA will complete two improvements to the CIAA-owned Paint River fish ladder. To reduce potential bear problems associated with the operation of the ladder, the fish exit pool at the top of the fish ladder will be expanded and the open cells on the lower end of the ladder will be covered. Other needed maintenance work will also be completed. This project will complete construction of the Paint River fish ladder.	CIAA	CD: EN	2/22/08	06/30/09	\$175,100	Southcentral (Cook Inlet)
