Nomination Form
Fish Distribution Database

Teshkepuk A3, A4, B3, B4, C3, C4, D3

Region Arctic USGS Quad(s) Ikpikpuk River D-3
 Fish Distribution Database Number of Waterway 330-00-10900
 Name of Waterway Ikpikpuk River USGS Name Local Name
 Addition Deletion Correction Backup Information

For Office Use

Nomination #	<u>07 887</u>	<u>[Signature]</u> ADF&G Fisheries Scientist	<u>11/2/07</u> Date
Revision Year:	<u>2008</u>	<u>[Signature]</u> ADNR OHMP Operations Mgr.	<u>11/2/07</u> Date
Revision to:	Atlas <input type="checkbox"/> Catalog <input type="checkbox"/> Both <input checked="" type="checkbox"/>	<u>[Signature]</u> FDD Project Biologist	<u>10/26/07</u> Date
Revision Code:	<u>A-1, B-6, C9, C8</u>	<u>[Signature]</u> Cartographer	<u>11/15/07</u> Date

OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
BWF	2003-2006			x	<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
 Broad whitefish were radio tagged in the Miguakiak (Mayoriak) River (outlet of Teshekpuk lake) and Teshekpuk Lake in 2003, 2004, and 2005 and in the Meade River in 2005. See attached map, Technical Report NO. 06-04, and January 2007 project update for details and additional justification.
 Nominations are based on relocation data obtained between 2003 and 2006 via fixed wing aircraft.
 This nomination extends the upper extent of anadromy in the Ikpikpuk River for broad whitefish. Based on the year fish were relocated in the upper ikpikpuk and their condition in the year of tagging, it is probable that these fish were in the upper river for spawning when relocated. *Updated hydrography with NHD arcs*
Extend stream at Broadwhitefish passage

Name of Observer (please print): William Morris
 Signature: [Signature] Date: 10/12/2007
 Agency: AK, Dept. Natural Resources, Office of Habitat Management and Permitting
 Address: 1300 College Rd
Fairbanks, AK 99701

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Fish Distribution Database.
