Dear Jerry Vanoff.

I finally send you the survey; about
the map location, where subsistence
take place at, Cape Waddy area.

The place are mark x, where those
who subsistence fishing in passed.

Even Herring subsistence, for Herring
eggs, when they spawn on
beach, for their own use for
food.

And also the area you send, Map of
Pothlatuk River, is also use
Many year. that gone by.
From our Aunt Chester, Way of Life, for
Subsistence, Winter and Summer
Season.

All Fish River area ^{drainage} is for Subsistence
use, for all Fish River tribe.

If anyone wish to know about
Fish River area drainage,
I can say more about it.

Because, I was raise, on my child
hood days. Travel with my both
parents.

Sincerely your, Oplains Sr,

Percy Agloinga Sr.
Box 84016
White Mountain, Alaska 99784

Dear Percy,

Thank you for working with me and the Bering Straits Coastal Management Program on anadromous fish streams.

As we discovered during our work, I did not have a complete set of maps for your documentation of anadromous fish within our region. To complete our anadromous fish stream nominations, I need you to document the upper extent of the fish migration in the streams and rivers you have nominated.

Enclosed is an addressed envelope to return the maps to the BSCMP upon your completion. With your accurate documentation, perhaps we can protect the resources we depend on for our subsistence needs.

Thank you for taking the time to complete your nominations.

Sincerely Yours,

Jerry Ivanoff
Hunter and Fisherman

P.S. Since I resigned my position as BSCRSA Coordinator on February 28, 1986, I would like to thank you one last time for making our work enjoyable in your village.

*Greeting to ever one that, I know
at Unalakleet area.*
