ALASKA DEPT. OF
 FISH & GAME

Location:

FEB 4 1983

Anadromous Waters Catalog Volume and Number

10³ USGS 1:63,360 Quadrangle Teller C-1

HABITAT
 REGIONAL OFFICE

or 1:250,000 (if 1:63,360 not available) Teller

Species	Date(s) Observed	Stage(s) (Spawning, Rearing, Migration)
Arctic Char	Sept 23, 1982	rearing juveniles

83-1441

Comments: Please provide any clarifying information in addition to identification on Anadromous Waters Catalog Public Review Maps.

A large spring approximately doubles the fall flow of Budd Creek at T3N, R32W, sec 19, KRM. Juvenile char were present from at least the spring downstream to the American River. (I didn't have a map available to plot this info)
