Species	Date(s) Observed	Spawning	Rearing	Migration
Coho Salmon	10/6/87	X		
Chum Salmon	10/6/87	X		
Bering Cisco	10/6/87	X		

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

I camped on this tream and found live Coho and Cisco in spawning condition  
I also observed several chum salmon carcasses on gravel bars. I am sure I did  
not reach the upstream extent of fishes migration.

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

UNITED STATES GOVERNMENT  
Geological Survey  
Topographic Map Series  
Scale 1:50,000  
NDELEBEN (B-G) ALASKA  
1950  
This map was prepared by the  
Alaska Division of the  
Geological Survey, Fairbanks,  
Alaska, under the direction of  
the Chief Geologist, Mr. J. W.  
Gardner, and the supervision of  
Mr. R. L. Smith, District  
Geologist, Fairbanks, Alaska.  
The map is based on the  
aerial photographs of 1949  
and 1950, and the ground  
control points of 1949 and  
1950. The map is a  
revision of the map of  
1949, and is published  
under the authority of the  
Secretary of the Interior,  
Department of the Interior,  
Washington, D. C.
