OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Chinook Salmon	5-Aug-06	X			<input checked="" type="checkbox"/>
Chum salmon	5-Aug-06	X			<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments:
 ADF&G was conducting aerial surveys and located spawning Chinook and chum salmon on redds at the upper end of McDonald Creek where the springs originate. Extend stream add Chinook and chum salmon spawning to 334-40-11000-3290-4020-5010 to 64° 33.333' N, 147° 19.0 W.
