OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
King salmon	9-10-08	2 carcasses		2 (carcasses)	

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: While on a personal moose hunt, I found 2 spawned out female Chinook carcasses on the river bottom. The coordinates are:

Carcass #1 N65.47279; W144.31648
Carcass #2 N65.45220; W 144.28329

Add Chinook salmon spawning to 334-40-11000-2860-3030-4060

Name of Observer (please print): Jason Post

Signature: [signature]

Agency: BLM

Date: 10-21-08

Address: 1150 University AVE
Fairbanks, AK 99709

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Anadromous Waters Catalog.
