Site Information Station: FSK1007B01 Date Observed: 8/10/2010 Legal Desc.: Sec 33, T. 29 N., R. 6 W., F.M. Latitude: Longitude: Datum:
 Upstream 67.29628 -148.89618 NAD83
 Downstream 67.29721 -148.88423

Station Comments: The reach sample was limited by fallen trees and shallow riffles. Habitat above the reach was very similar to the sampled reach with the exception of more fallen trees. BF width was wetted stream width + 2 meters for the majority of the stream. This differed from the habitat measurements taken at the initial site. The overall average was used for this since they differed so much. Very low stream gradient.
