Nomination II _____

[signature] 9-25-85
Regional Supervisor Date

OK SOS 1/25/85

TB 10-1-85
Drafted

Species	Date(s) Observed	Spawning	Rearing	Migration
King Salmon	August 19, 1985	X		
Chum Salmon	August 19, 1985			X

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Aerial Survey was conducted in a supercub by US Fish and Wildlife Service. 9 Kings and 6 King Redds were observed above the confluence of Pass Creek. 437 chums were observed approx. 8 miles below the confluence of Boulder Creek. New anadromous stream

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

Name of Observer (please print) John Hawkinson

Re. Jack Ck. spawning:
We questioned Mike
at JDF feels strongly
that a Char fry under
most circumstances
would not migrate this early.
Thanks —
Walter — Jo
