For Office Use

Nomination # 91 028

[signature] 10/29/90
Regional Supervisor Date

SD 12/26/90

F1 12/20/90
Drafted Date

Species	Date(s) Observed	Spawning	Rearing	Migration
Chums	7/27/88	?		?

Comments: Provide any clarifying information, including number of fish observed, location of fish survey data, etc.

Doing aerial recreation surveys of Beaver Creek sited 2 dark blue/or black salmon at wild River mile 70 either spawning or migrating. Water low/very clear. Flying at 800-1000'. Water 1½-2'. Near left bank looking downstream

(From my Summer Field Notes-1988)

Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls. Attach a copy of the fish survey data, if available.

MESSAGE	REPLY
Attached is data collected by BLM on chum salmon observed in Beaver Creek. Assuming these 2 fish were accurately identified by BLM chum salmon should be added to the Anadromous Fish St. Catalog & Atlas for nomination form & backup.	Fish Biologist, Lou Carapella, the the Anadromous Beaver Creek. (See attached notes).
