OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Chinook salmon	8-6-92	No	Yes	Yes	Yes
chum salmon	8-6-92	Yes	No	Yes	Yes

Provide any clarifying information, including number of fish observed, location of fish survey data, etc. Attach a copy of the fish survey data, if available. Attach a copy of a map showing location of mouth and upper points of each species, specific stream reaches identified for spawning or rearing, locations of barriers, such as falls.

Comments:

On 8-6-92, while electroshocking, I observed one adult chum salmon in Marion Creek near the Trans Alaska Pipeline stream crossing. This is approx. 250-300 yards upstream of the confluence with the Middle Fork Koyukuk R. I also ~~Sobac~~ shocked one king salmon juvenile approx. 50 yards from the confluence. This is also consistent with BLM's "Open File

Name of Observer (please print) Frederick M. Thompson
