OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Coho salmon (<i>Oncorhynchus kisutch</i>)	Sept., 19, 2000	18		adults	<input checked="" type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: Section 7, T. 18 N., R. 1 E., S.M.; NE on Fishhook Rd, left on Welch Rd., 1 mi. right @ fork to bridge, left on Short, the right @ T - Paulson St. to end of cul du sac. The documented use of the Little Susitna River by coho salmon for spawning in this river reach is currently in Sections 12 & 13, T. 18 N., R. 1 W., S.M. This observation extends the spawning reach 1 1/4 mi. upstream for coho salmon.
