					☐

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: NE ¼ Section 16, T. 17N., R. 3E., S.M.; Stepan Lake outlet stream and tributary to Meadow Creek at Ryan Road. Approx. 12 to 15 adult coho salmon were observed (some near redds) between new timber bridge at Ryan Road and Stepan Lake outlet. The current documented stream use by coho salmon is rearing. This observation adds spawning to this reach of stream.

Name of Observer (please print): Dennis G. Gnath

Signature: Dennis G. Gnath Date: 12-14-00

Address: 333 Raspberry Road
Anchorage, AK 99518-1599

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.
