|--|----------|-----------------------|----------------------------|-----------------------------|
| Species: Dolly Varden                                    | Count: 1 | Date Observed: 9/2/99 | Life Stage: Juvenile       | Life History: Unknown       |
| Fish Sampling/Observation Method: Portable Electrofisher |          |                       |                            | Electrofishing time (s): 89 |
| Fish passage barrier at site: Unknown                    |          |                       | Trap in:                   | Trap out:                   |
| Species Comments:  |          |                       |                            | Area (m2):                  |
| Species: Dolly Varden                                    | Count: 2 | Date Observed: 9/2/99 | Life Stage: Juvenile/Adult | Life History: Unknown       |
| Fish Sampling/Observation Method: Portable Electrofisher |          |                       |                            | Electrofishing time (s): 89 |
| Fish passage barrier at site: Unknown                    |          |                       | Trap in:                   | Trap out:                   |
| Species Comments:  |          |                       |                            | Area (m2):                  |

1. Add per information in Fisheries Data Series Report No. 98-9 & 99-11 Anadromous Dolly Varden in Deep Creek System.

**IMPORTANT:** Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Name of Observer: Michael Wiedmer, Habitat Biologist  
Signature: [Signature] Date: 1/18/02  
Address: Habitat and Restoration Division, Alaska Department of Fish and Game  
333 Raspberry Road  
Anchorage, AK 995181599

This certifies that in my best professional judgment and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.

Signature of Area Biologist: \_\_\_\_\_ Revision 9/99
