OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Migration	Anadromous
Coho salmon	10/15/02	<input checked="" type="checkbox"/>			

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: A ripe female coho salmon was captured and released at the base of Bridge Creek reservoir (the head waters of Bridge Creek) immediately downstream of the dam structure. Two other coho salmon were observed but not captured.

Accompanying A.D.F.&G. personnel were Fritz Kraus and Craig Bauer Add CBs to stream

Name of Observer (please print) NICOLE J. SZARZY
 Date: 10/17/02 Signature: Nicole Szarzy
 Address: 3298 Douglas Place
Homer, AK 99603

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.
