Up Stream (Original) 61.77092 -152.02577 WGS84
Rosgen Channel Type:

Station Comments: Fish observed in clear side channels, tributary mouths throughout reach. Barrier falls upstream at station 20A14. Station waypoint marked while flying.

Observation Information

Life History: Anadromous

Species\Lifestage: sockeye salmon adult spawning

Samp. ID (# Fish): A (230)

Barriers: Unknown

Species\Lifestage: sockeye salmon carcass

Samp. ID (# Fish): A (2)

Barriers: Unknown

Key to Samp. ID

Samp. ID: A Method: Visual Observation, Helicopter

Comments:

Additional Comments: Add new stream w/Sp (4089)
Add new stream w/SS (5255) Add new stream w/SS (5259) 6011

MEMORANDUM

TO: J. Johnson

FROM: Joe Buckwalter *JB*

DATE: 5/26/04

SUBJECT: Addendum to Trimble River nominations (nom. numbers 04-029 and 04-035)

I have attached additional information for each nomination, to more precisely describe locations where anadromous fish were observed. Both these nominations were for aerial observations of spawning sockeye salmon within stream reaches bounded by GPS waypoints taken at the upstream and downstream ends of each reach. Within each reach, additional GPS waypoints were marked from the helicopter where spawning sockeye salmon were observed.

The attached tables list fish observations recorded at each GPS waypoint within the nominated reaches. The attached maps depict the location of each waypoint, as well as the GPS track marking the helicopter's path. The attached field notes are copies of the original record of fish counts at each waypoint.
