OBSERVATION INFORMATION

Species	Date(s) Observed	Spawning	Rearing	Present	Anadromous
Chinook salmon	May - July, 2008		X		<input checked="" type="checkbox"/>
<i>Chinook salmon</i>	<i>May - August, 2008</i>		<i>X</i>		<input checked="" type="checkbox"/>
	<i>July</i>				<input type="checkbox"/>
					<input type="checkbox"/>
					<input type="checkbox"/>

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as other information such as: specific stream reaches observed as spawning or rearing habitat, locations, types, and heights of any barriers; etc.

Comments: Chinook salmon juvenile observations recorded in Chuit River Freshwater Fish Studies, 2008 Progress Update and Data Report, April 21 - 23, Prepared by PacRim Coal LP By - LGL Alaska Research Associates, Inc August 6, 2008
add Chinook salmon rearing to 247-20-10010 *Should cite field report 2/18/09*

Name of Observer (please print): Matt Nemeth
